VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. APRIL 25, 1895. NO. 17

FINALLY RESCUED.

But it Was Not the Fault of a German Vessel's Captain.

Philadelphia, April 21.—The steamship Southwark, which arrived here to-day from Liverpool, brought Captain Edwin Moore and the crew of six men of the Nova Scotian schooner Glenola, from which they were taken on Friday last. When abandoned the Glenola was in a waterlogged and sinking condition. The Glenola left Halifax for Demerara with a cargo of dried fish and potatoes on April 11.

Almost from the beginning of the voyage heavy weather was encountered and on Tuesday last a gale struck the little schooner and battered her fearfully. Her rudder was carried away and the crew put out drags and rigged a storm trysail to keep her head to the seas. That night the vessel sprung a leak and began to fill. On Wednesday the gale moderated, but a nasty sea was still running and the crew were compelled to work hard to keep their vessel afloat. Several steamers were seen on Wednesday, but none passed near enough to be signalled.

On Wednesday evening a three-masted, heavily laden German steamer, bound probably for either Philadelphia or New York, bore down to the Glenola in answer to her signals of distress. Captain Moore hailed the German and told him that his vessel w s sinking and he wished to be taken off. At this time the schooner's deck was almost flushed with water. After hearing what Captain Moore wanted the German without making any reply to his appeal, steamed ahead at full speed and abandoned the crew of the schooner to what appeared to be certain death.

The men of the Glenola managed to keep their vessel afloat until Friday, when the Southwark bore down upon them and took them off. Captain Moore and his men saved nothing from the wreck, losing even their clothes. Several of them are badly crippled with rheumatism from the exposure and the constant wetting they received.

Why Not Annually?

The Governor has signed the sinking fund act by which cities are only required to levy the tax necessary to redeem the bonds at the end of thirty years. By this act, it is stated, the city authorities are authorized to issue bonds serially and redeem a part of them at stated periods, the plan proposed being to redeem a portion every three years.

That authority being beyond doubt, why not apply the principle to its fullest extent and redeem a portion of the bonds each year? By the three years' plan the sinking fund must be held an average of a year and a half, and the experience is that sinking funds held for such short terms get little interest. By the annual plan of redemption the money collected for the sinking fund each year will be applied that year, and there will be no loss of interest.

If it is a good thing to redeem bonds triennially, it is a better thing to redeem them annually. What reason is there why the better course should not be chosen?

A Fatal Quarrel.

Philadelphia, April 21.—A feud of eight months' standing between two Italian families culminated to-night in the fracturing of a man's skull, probably fatally injuring him, and the killing of a woman by the man she struck. The feud was between the Barbour and Manna families. To-night Dominita Manna called upon some friends. Mrs. Angeline Barbour lodged in the same house and she met Manna in the room of his friends. A quarrel ensued between the pair, arising from the feud between them, and the woman, it is alleged, picked up a hatchet and struck Manna on the head with it.

Manna fled from the house pursued by Mrs. Barbour. She chased him through the streets, and finally came up with him. The man turned upon her and renched the hatchet from her hands, struck her upon the head, and felled her to the ground. By this time the police had come upon the pair, and hurried them both to the hospital. Mrs. Barbour died shortly after their arrival there and Manna has a fractured skull and may also die.

Charged with Fraud.

New York, April 21.—Samuel C. Ayman charged with defrauding the Shoe and Leather bank of $20,000, and who was arrested in Brooklyn last night, was to-day arraigned in the tombs police court and committed to await further examination. Ayman is a brother-in-law of Samuel C. Seely, who was recently convicted of robbing the same bank of $350,000 and sentenced to eight years in the Kings county penitentiary. It is said that the defalcations of the accused extend over a period of fourteen years.

HENDERSON—TAYLOR.—At the United Evangelical parsonage, April 18, 1895 Mr. B. K. Henderson and Miss Jennie T. Taylor, both of Bellefonte.

HORRIBLE SIGHTS.

Those Seen by Captain Smith on the Streets of Lima.

San Diego, Cal., April 22.—Captain Smith, of the revenue cutter Commodore Perry, which arrived here yesterday from New York, said to-day in relation to affairs in Peru: "When we arrived at Callao, March 24, General Jastermski, the American consul, came greatly excited to tell us that American interests were in danger, and that prompt protection was necessary to save the lives of Americans. He gave me an account of the attempt to burn the American legation at Lima. I ordered a force of officers and twenty-five men with a rapid firing gun to aid the consul whenever necessary, the force being in readiness to disembark at a moment's notice. Then I went to Lima and saw the American minister, Mr. McKenzie. He had sent his wife and two other American women out of the country on a New Orleans steamer because their lives were in constant danger on account of the revolution. Native and foreign life was cheap. Shot flew like hail in the vicinity of the legation and the walls were peirced with bullets. Mrs. McKenzie was only saved from being killed while standing at the window of the legation by her husband calling her away, a bullet passing the spot as she turned. The streets in front of the legation was barricaded and flanked by the rapid firing of guns of the Caceristas and Moneteres. The street were covered with lime to destroy the stench from the bodies of the slain. I saw 1,500 bodies of those killed the day before my visit. May houses were destroyed by fire and others were honeycombed with shot. Devastation was to be seen on all sides. Minister McKenzie and Consul Jastermski sent me letters of thanks for protection."

Forest Fires Cause Much Damage.

Oil City, Pa., April 21.—Forest fires have been raging in this neighborhood for two days and considerable valuable timber has been destroyed. In many cases the fires have been started by accident, but in one case maliciously. At Powell's Run, eight miles south of here three men deliberately fired the woods adjoining much valuable property and they were chased for several miles by neighbors, but escaped. Along Porcupine and Reed runs, two of the best trout streams in this neighborhood, the North Peen, Watson Clapp and Kahl Brothers have from 200 to 400 producing wells, many tanks of oil and drilling wells. They have officers out watching for fire and to arrest for trespass all fisherman, who, it is said, started the fire in the woods last year that destroyed much valuable property for these firms.

Went Down Together.

Washington, April 21.—A sensational drowning affair occured in the eastern branch of the Potomac river this afternoon, Irving Lyle and Miss Chase Cantos was out rowing and when the boat was off Second street people on shore saw them standing up in the boat and apparently quarrelling. In a few moments the boat upset and its occupants were struggling in the water. The woman clung to the boat but Lyle grasped her and pulled her back into the river and both sank out of sight. The body of Miss Cantos was recovered later in the day but that of Lyle has not yet been found. Both lived at Anacostia, a suburb of Washington.

Leading New Jersey Lawyer Dead.

Trenton, N. J., April 21.—Barker Gummere, one of the leading lawyers of New Jersey, died of Bright's disease, just before midnight, aged 72 years. He had for many years been connected with all the important cases in the higher courts, and from 1861 to 1871 he served as clerk in chancery. He leaves a widow and eight children, four daughters and four sons. One of his sons is Justice William Gummer, of the supreme court; another, Barker, Jr., is clerk of Mercer county, and the youngest, Charles E., is one of the covnsel of the Pennsylvania railroad.

Organized to keep the Price Up.

Ottumwa, Ia., April 21.—The "Mystic coal field" at Mystic, this state, has been organized. This is the largest organization for the mining and marketing of coal in Iowa, and perhaps in the west. In it are consolidated fifteen companies operating twenty-three mines at eight different towns, with an output of over a million tons of coal a year. It was organized for the purposes of keeping up the price of coal and for economizicg in operating.

The Standard Is Sly.

Pittsburg, April 22.—Reports from Oil City during exchange hours stated that a broker up there was trying to buy any outstanding oil certificates he could get for the Standard. This, it is said, caused the advance in the speculative market. If the standard obtains all the outstanding certificates that will end speculation in oil on the exchange.

A CRIMINAL IN LUCK.

Frank Poor Committed Forgery, but is Now a Millionaire.

Boston, April 22.—An evening paper says: According to reliable information, Frank Howard Poor, formerly of Haverhill, this state, and now an inmate of the Massachusetts reformatory at Concord, is many times a millionaire, having recently been left an estate which is worth $16,000,000. Some months ago Poor became disheartened and committed the crime of forgery and was sentenced to the reformatory at Concord for one year. The vast wealth that has come into his possession comes to him according to this same information, through the will of Millionaire Howard, of Nevada, the young man having been named after that gentleman. Other parties in Sacramento and Oakland, Cal., and Carson City, Nev., are said to be benefitted by the will. Poor is 24 years of age and has always been considered a bright young man.

The fortune which has been left him is well invested in gold mines, real estate, mortgages, etc., yielding an enormous yearly revenue. Poor will not be released from the reformatory until January next unless his friends are successful in securing a pardon for him. Young Poor has several wealthy relatives, among them George Poor, of Providence, R. I. Young Poor forged a note with the signature of Hon. Caleb Saunders, ex-mayor of Lawrence. The forged check was discovered at the Merchants' bank in Lawrence and Young Poor was arrested a week after the check had been passed. The death of Millionaire Howard, as near as can be learned, occurred a few months ago, and the estate is being settled by two law firms. The Haverhill relatives received word from these firms, and the whereabouts of young Poor, who is said to be the principal heir to the millions, was made known to them.

Will Remain on Strike.

Pittsburg, April 22.—The coal miners' strike in the Pittsburg district seems as far away from a settlement as at any time since the trouble began. The delegates returned to the convention this morning instructed to hold out for 69 cents a ton if a conference was held with the coal operators. As the operators informed the convention on Saturday that 60 cents a ton was the best rate that could be paid, it looks as if the strike will continue unless the miners come down in the price they demand for mining.

A member of the operators' committee, when he heard the delegates to the convention insisted on a 69 cent rate, said it would be useless to confer with the miners' committee, as the operators would not pay 69 cents.

At this afternoon's session it was decided to continue the strike for the 69 cent rate. This action was taken after the delegates learned that the coal operators would not appoint a committee to confer with the miners on the wage rate. The operators say they cannot and will not pay more than 60 cents and will resume work at their mines as rapidly as they can secure new men.

C. P. Huntington Arrested.

New York, April 22.—C. P. Huntington, President of the Southern Pacific Railway Company, was arrested in his office in the Mills building this morning by United States Marshal McCarty, on a warrant issued on an indictment found against him by the grand jury of the Northern District of California. The indictment charges that Mr. Huntington on January 10, 1894, issued a free pass over his company's railroad to Frank M. Stone, and thus violated the interstate commerce law by an unjust discrimination against it.

Mr. Huntington was taken before United States Commissioner Shields for examination on the question of identity and was held to await the issue of a warrant of removal to California for trial.

United States District Attorney Wallace McFarlane at once went before Judge Brown in the District Court and applied for the issue of the warrant. Argument on the application was adjourned until April 25. Mr. Huntington was released on his own recognizance.

Children Kidnaped.

Washington, April 21.—About noon today, while the streets were filled with people, two children, Nellie Franz, aged thirteen, and Stewart Franz, aged eight, were seized at the corner of 8th and B streets, Northwest, thrust into a closed carriage and driven rapidly out of the city in the direction of Baltimore. It is supposed that the kidnapping was done by, or at the instance of their father, Charles F. L. Franz, a bookbinder at the government printing office. Franz and his wife have separated and a suit for divorce is pending. The The children were left in the mother's charge and it is thought the father took this method of securing their possession. No clue has yet been found as to their whereabouts.

MAY PROVE AN ALIBI.

At Least W. H. T. Durant Will Try Very Hard to Do So.

San Francisco, April 23.—When the preliminary examination of W. H. T. Durant, the medical student accused of outraging and then ferociously murdering Miss Marian Williams, in Emanuel Baptist church, on the night of April 12th, is resumed this morning, there will be a new witness, who will give most damaging evidence againgt him.

It will be remembered that Durant had strenuously denied having met Miss Williams at any time after three weeks prior to her death. There has been evidence that he was seen the vicinity of the church that night by one man, three girls and a woman, but only one of these—a young girl—has stated that she recognized Durant; her testimony is weakened by that of a companion, who was with her at the time, and failed to recognize the prisoner in court.

But J. B. P. Hogeson, a citizen who lives within a few doors of the church, who has been found after much labor by detectives, will testify positively on this point.

He says that the night in question he was passing by the church, when he saw a young man and a young lady at the church gate. Hogeson told his story to the detectives and Durant was brought up from his cell.

As he faced Hogeson the latter said: "That is the face; that is the man; I am sure of it.

Durant again denied that he was at the church, and said that Hogeson was mistaken, but the chief of police thinks he has found the most important witness in the case.

It is now certain that the accused man will seek to establish an alibi.

Hastings in Scranton.

Scranton, Pa,, April 22.—Governor Hastings, wife and staff reached the city at 4.30 o'clock this afternoon and at 8 o'clock this evening, at the Frothingham Theatre, Governor Hastings, sporting from a box, formerly opened a local entertainment, to continue for a week, to raise funds to erect a new armory for the Thirteenth regiment. The entertainment is the presentation of Judson Kilpatrick's military drama, "Allatoona."

The well known men who accompanied the Governor were Adjutant General Stewart and Secretary of Internal Affairs Brown. The Governor's welcome to the city was a warm one. The appearance of his train was greeted with a salute of twenty-one guns and he found the Thirteenth regiment drawn up in line to escort him to a hotel. Between 6.30 and 8 o'clock a reception was tendered Governor and Mrs. Hastings in the parlors at the Wyoming. The governor's party will return to Harrisburg to-morrow morning.

Skin Grafting Extraordinary.

Montclair, April 22.—The case of Fred Griffith, the 12-year old son of John Griffith, who was badly burned by firecrackers taking fire in his trousers' pockets on July 4 last, is the subject of considerable interest here. The lower part of the boy's body and his left leg was frightfully burned. Under the most careful treatment the burns would not heal, and skin grafting was resorted to. The cuticle that has been placed on the boy has been taken from over 200 persons, principally men. Mr. Gibbon, a young man who has taken great interest in the case, has contributed 1000 grafts.

Up to the present time 16,000 pieces of skin have been placed on the burned surface, and it is said by the doctors that it will take upwards of 15,000 more. Yesterday 500 pieces were taken from three persons and grafted. The grafts are hardly preceptible, each being about the size of a pin head.

On the Retired List.

Washington, April 22.—A general order was issued at the war department to-day announcing the retirement of Major-General Alexander D. McCook, in which the services of the retiring officer are referred to in the highest terms of praise. General McCook is the last survivor but one of a gallant family which gave a father and every son to the military service in defense of the country, and lost four—dead on the battlefield.

Twins Six Times.

Zanesville, O., April 22.—This city has a colored resident who boasts a record peculiar to himself. He was born in Charleston, S. C., and is 54 years of age. He has been married five times, his last wife being only 20 years of age. He has been married to her six years and is the father of six children, three pairs of twins. He is the father of nineteen children, seven of whom are dead. Three of his first four wives bore him twins.

—A new roof has been put on the office of the Valentine Iron Company out near the rolling mill.

WEEKLY FINANCIAL REVIEW.

From our Regular Correspondent.

NEW YORK, April 20, 1895.

After a lull of two weeks following the late advance in prices, Wall Street has received a new upward impulse. The revival during the last half of March was a real test of the intrinsic condition of the market. The rest that followed it was equally so; and the outcome of that second stage has been equally satisfactory. It has shown no exhaustion of either the investment or speculative spirit; no disposition to rest on the profits realized upon the rise, and none to force a downward reaction in order to make a lower basis for a new upward movement. There seems to have been a lack of confidence in the success of any attempt to mark down values; even the "bears" have shown no faith in such a policy; and holders have held firmly to their stocks on the conviction that they are still undervalued and susceptible of a further advance.

Under these conditions, all that was needed to a fresh upward spurt was some new conspicuous stimulus to the already existing confidence. That has been forthcoming, in the form of a sudden and remarkable rise in the price of cotton, petroleum, wheat, corn and beeves,—five articles which supply fully forty per cent. of the entire value of our exports. There has been some difference of opinion as to how far these advances are due to speculative influences and to natural causes. There can be no question that, in the case of each article, there are legitimate causes at work; and there is as little doubt that those causes have been turned to account for speculative purposes. But Wall Street reasons on the facts thus;—that so far as the influences producing the rise in prices have been natural, they show that the downward tendency in trade values has spent its force; that diminution of production has gone as far as low prices will permit; and that demand is gaining upon supply, so as to foreshadow from this time forward an upward movement in commercial values. On the other hand, so far as the rise in staples is connected with speculation, it evidences in the first place, that speculative operators have been expecting this change, and that they are prepared to follow it; while the readiness of speculation to undertake large operations in the leading staples is proof of the recovery of confidence among this class of operators. The expression of renewed vitality in speculation naturally encourages the Stock Exchange interests and suggests the probability of an increasing activity in the movement of securities.

It begins to be realized even by the heretofore most rampant bears, that this country has turned its back on pessimism, and that the only way to prosper hereafter is to be optimistic. It has been a long and dreary lane for business people to wade through, as its starting point was really the Baring panic in November, 1890, over four years ago. The energies of the people of this country have been crippled more or less since that time, especially during the last two years. If I mistake not, the impetus has now legitimately started on its upward movement and will gain strength from now onward until it reaches extremes in many channels. One excess usually follows another. The improvement thus far is certainly of a substantial nature. It is visible not only in the oil market, the iron market, the cotton market, the grain market, but also in the security market, and last, but not least, in the silver bullion market. As an evidence that the advance in the white metal is considered permanent, the silver goods manufacturers have just decided to advance the price of all silver-manufactured articles 20 per cent. The successful hunt for gold all over the world enters in to the situation. This year's product of the yellow metal is likely to be the largest on record. There are evidences of a gold craze in Colorado equal to the former silver craze in that section. Everything favors the development of the miners in Colorado; the climate is perfect, the mines are all accessible by railroads, and the greatest smelters in the world are located in that country which are equal to all emergencies.

The real extent of improvement now going on among our manufacturers is not generally understood or credited. The most "bullish" class in the country at the present moment are the manufacturers. They are better situated than any other class to feel and measure the first throbbing of a new impulse of demand; and it is their testimony, in almost every branch of trade, that the outlook is most encouraging. In many cases, they have the courage to demand higher prices and to wait, if necessary, until they can get them. Their orders are on a larger scale than for the last two years, and they are increasing their purchases of raw materials in expectation that they may have to pay higher prices for them. The feeling, in short, is general that, providing the steadiness of the financial situation can be depended upon, this country is on the verge of an era of very unusual prosperity. We are in a position to produce at lower costs than ever before. In this respect, we have, within the last two years, made very important gains upon other manufacturing countries. The pressure of the new tariff has to some extent contributed to this; partly by compelling manufacturers to improve their methods and economize on the costs of production, and partly by the cheapening of some of their raw materials. In one article or another, they are treading close on the heels of England and Germany in the foreign markets; and one of the early results of the new conditions is likely to be a material increase in our exports of home manufactures. While the conditions for production stand thus favorably, there is an arrearage of ully two years in the supply of a wide range of wants. Since the great Spring alarm of 1893, it has been as much as most people could do to supply the common necessaries of life—food, clothing, shelter and comfort;—repairs, new outlays, and luxuries have had to stand over; and one of the first things after such an experience is to compensate for these omissions of ordinary expenditure. It is not merely in domestic life that these compensations are waiting to be provided for. It is equally so in our industrial system, which calls for repairs and replacements of machinery; and in our transportation system, whether of rail or water. In the railroads, construction has been comparatively speaking suspended since 1892. We probably need little in the way of new independent lines, nor does much of such work seem to be contemplated. But all over the country, work is much needed in the way of extensions, double tracking and the creation of connecting links between existing lines. If all the legitimate work of this kind could be done within one year it would far exceed the largest annual construction in our history. It will thus be seen that there is enough waiting work to call the full energy of the nation into early activity.

London remains a steady support to our financial markets. England has recently taken quite an important amount of our securities; nor has she shown any disposition to realize on them under the recent advance in prices. Under the rise of the past week, London follows our market, and shows confidence in the maintenance of values.

Taking the situation as a whole, I cannot but regard it as one warranting increased confidence and a steady progress towards higher prices on the markets both for goods and investments.

HENRY CLEWS.

Fastest Railroad Time.

Camden, N. J., April 22.—The fastest time ever made between here and Atlantic City, and the fastest time ever made by a railroad train in this country for such a distance, was that accomplished by the special newspaper train on the Pennsylvania railroad yesterday morning. The distance run was made in 45 minutes. The distance by this route is 58 3-10 miles and the average speed was 76½ miles per hour.

From Winslow to Absecon, 24 9-10 miles an average speed of 83 miles per hour was maintained. The fastest single mile was made in 41 seconds, which is an average of 87 8-10 miles per hour. This is the most notable performance in railroad speed which has yet been made.

Foster on the Weather.

My last bulletin gave forecasts of a storm wave to cross the continent from the 23d to the 26th, and the next will reach the Pacific coast about the 27th, cross the western mountain country by close of 28th, the great central valleys from the 29th to May 1, and the eastern states about May 2. A warm wave will cross the western mountain country about the 27th, great central valleys on the 29th and the eastern states May 1. A cool wave will cross the western country about the 30th, great central valleys May 2 and eastern states May 4.

A Bulletin of Interest to Farmers.

Professor Benjamin Everhart of West Chester, the eminent botanist, will prepare a bulletin for the state department of agriculture, describing the fungi detrimental to grains, fruits, vegetables and vines. The bulletin will be based on the professor's observations in the field and studio during the past 40 years. The state has never published anything of this kind.

Military Matters.

The following appointments in the Fifth regiment, Colonel Theo. Burchfield commanding, are announced:

Edwin M. Amies, of Altoona, adjutant, vice Henry C. Quigley, of Bellefonte, resigned.

James B. Strohm, of Bellefonte, commissary sergeant, vice Thomas R. Benner, of the same place, honorably discharged

FIVE GOVERNORS.

Give Their Views as to the President's Financial Ideas.

St. Louis, Mo., April 17.—The Evening Chronicle to-day received five telegraphic replies from governors of five western states in answer to the following query: "Do the people of your state indorse Cleveland's financial views?"

Governor Stone, of Missouri, said Cleveland was merely filing old saws and that men who think are not fooled by such words as "Sound Money" and "Patriotism." Missouri and west were for free silver.

Governor Richards, of Wyoming: "I answer unhesitatingly, they do not. In the last state election the people of Wyoming declared unequivocally for the free and unlimited coinage of silver at the ratio of 16 to 1 and the position holds good irrespective of party."

Governor Holcomb, of Nebraska: "The great majority of Nebraskans are, regardless of party affiliations, in favor of free and unlimited coinage of silver and opposed to the Wall street view of President Cleveland. Without doubt, Nebraska be classed as a free silver state and opposed to the president's financial policy."

Governor Richards, of Montana; "The people of Montanna of all political parties repudiate Cleveland's financial views and criticize the attempt of the president to assume leadership of a financial policy that has seriously crippled the business interest of all sections of the country."

Governor McIntyre, of Colorado: "Colorado's people believe in sound money as thoroughly as any one believes that of gold alone there is not sufficient to supply an adequate medium of exchange. The money needs of the nation, as well as the world, require both gold and silver at the natural ratio of 16 to 1 and will inevitably compel such use of both. We not only do not indorse President Cleveland's views, but think in his letter he begs the whole question."

Governor Stone, of Mississippi: "The people of Mississippi are divided on Cleveland's financial views. An active, energetic and aggressive canvass is now being made against his financial policy and in favor of the free and unlimited coinage of silver at the 16 to 1 ratio, without regard to other nations. It is impossible at this time to be more definite."

Another Reason Given.

Cincinnati, April 17.—Alexander McDonald, of the Standard oil company, says concerning the advance in oil: "The entire purpose in the movement is to stimulate the production of crude oil. It was seen that the best and indeed the only way that this could be brought about was by an advance in price. There has been a considerable drop in the amounts, and it was necessary to stimulate the output that the market might be supplied. At the present time the demand for refined oil ready for use is far in advance of the amount of crude oil in sight. It the crude oil on hand, or that is expected to be produced in the next six months were refined there would not be enough to supply the market demand for it already existing under the stimulation of an advanced price. This amount will be increased many fold so that the equilibrium will be restored. The charge that the advance was made with the intention on the part of the Standard oil company to crowd out competition is untrue.

Colonial Dames.

Philadelphia, April 17.—The annual meeting of the Pennsylvania Society of the Colonial Dames of America was held at the College of Physicians, Locust and Thirteenth streets, at 3 p. m. to-day (Wednesday). The meeting was called to order with Mrs. William Bacon Stevens, first vice president, in the chair. The annual report was read by the recording secretary, Miss Helen B. Tyler, telling of six general meetings held during the past year. Mrs. Theodore M. Etting, registrar, reported sixty-one new members of the society, making 354 in all.

The treasurer of the society, Mrs. Isaac Starr, reported a comfortable balance in the treasury, after which Miss Anne Hollingsworth Wharton, historian of the Pennsylvania society, read her annual report.

The following officers were elected: President, Mrs. E. D. Gillepsie; first vice president, Mrs. William Bacon Stevens; second vice president, Mrs. Charles C. Harrison.

Booming Free Silver.

Lexington, Ky,, April 18.—A big mass meeting was held here to-night by the advocates of free silver. The meeting is the first of the kind in the state and charges were made upon the honesty and integrity of Secretary Carlisle, who is looked upon as being a probable candidate for the United States senate to succeed Mr. Blackburn. The meeting was for the purpose of organizing a bimetallic club, but the establishment of the club was deferred and the time consumed in discussing the financial question. Mr. Carlisle and President Cleveland were roundly denounced by democrats and republicans.

Made an Assignment.

Philadelphia, April 18.—Sevill Scofield & Sons, woolen manufacturers of Manayunk, to-day assigned. The deed conveys the Economy mills and twenty-three other pieces of estate in Manayunk, Roxborough and other suburbs of Philadelphia. The employes of the mill to the number of 500, out of a total of 2,000 hands, went on strike on Tuesday after demanding an increase in wages of 15 per cent., which request was denied.

IT FLOATS

FORTY MILLION CAKES YEARLY

THE PROCTER & GAMBLE CO., CIN'TI.

The Mormon Balance Sheet.

In getting material for an article in the May *Century* on "The Conquest of Arid America," Mr. William E. Smythe was assisted by the authorities of the Mormon Church at Salt Lake City, who succeeded in preparing for Mr. Smythe's article what amounts to a balance sheet of industrial operations of the entire American people in Utah during a period of forty years.

The mormon people were drawn from the poorer classes of society in this country and in Europe, and began the conquest of Utah almost without capital other than their labor. They have occupied and improved a vast area of originally desert soil, building homes, towns, factories, railroads, stores, and costly temples. All they have came primarily from the soil under a peculiar system of industry which Mr. Smythe and other irrigationists believe to be full of possibilities in the future work of reclaiming and settling the arid region as a whole.

The Mormon statement shows the grand total of millions realized from the soil and how it was expended. It also shows the average amount earned by individual farmers, the number of people who own land, and other interesting facts. It is a striking exposition in condensed form of the results of forty years of extraordinary industry applied under a unique economic system. These figures were submitted to the head of the church, including members of the first presidency, the leading bishops and other prominent citizens, and are vouched for as substantially correct. This, however, is but one feature of an article of broad scope dealing with the results of irrigation in California, Utah, Arizona, and elsewhere, and forecasting the possibilities of home-making in half a continent.

Other Counties.

The borough council of Washington is deadlocked on a presiding officer.

There are fourteen cases of typhoid fever on East church street, Ligonier.

Philadelphia's textile workers are much better paid than those employed in that industry in any other part of the country.

Steve Balden, colored, who was mentally unbalanced, died in the Fayette county home, after 40 years' residence there, aged 82.

D. M. Pry, justice of the peace of Burgettstown, is threatened with prosecution on the charge of bribery at the recent election.

Indiana county will have no room for complaint, so far as select schools are concerned, as twenty-five are booked for this summer.

George Ward, brother-in-law of Trustee Duss, of Economy, has been released from the Beaver jail on condition that he stays away from Economy.

A meeting of the citizens of Newton Hamilton and Wayne township who are interested in the further prospecting for gold has been called for this week.

C. R. King, of Cherrytree, has returned from his annual rafting trip down the river. For fifty-one years he has made the trip down the river without missing one season. His first trip was made when he was but 14 years of age.

The Old Well.

Old soldiees hereabouts who still have memories of Camp Curtin, Harrisburg, will be interested in the following, taken from the Call, of that city:

"The well lately uncovered on the old Camp Curtin grounds, corner of Sixth and Maclay streets, is attracting much attention. It is walled with brick, is seven feet in diameter and about fifty feet in depth. The story was told yesterday that not many years since an old veteran returned and after learning the locality of the gate, secured a pick, and, to the surprise of a few spectators, dug up the rotted base of a post. In the latter was a small tin box, which, upon being opened, contained a quantity of gold and silver, which he carried away with him. No explanations were asked and none were made. This story is vouched for by several prominent citizens."

Quietly Married.

Last Sunday evening April 7th, Rev. Illingworth united in marriage at the Methodist parsonage, at Spring Mills, Mr. H. W. Kreamer and Miss Maggie Hanna, both of Centre Hall. The couple returned to Centre Hall that evening took up their abode at the residence of the groom, where they will remain.

Mr. Kreamer is a member of the firm of Harper and Kreamer, the reliable merchants, and is a gentleman in every sense that the word implies. He has secured an excellent lady in Miss Hanna, who for years has had charge of the primary department of the Centre Hall schools. Congratulations to the newly married couple.

WELL LOADED.

What Was Found on Two Suspicious Looking Men.

Two rough looking men alighted from an electric car from Mill Hall Thursday evening and began eyeing the business places along Main street. Chief Keller, noticing them, ordered their arrest. The men stated they had come from Hublersburg, but did not tell a very straight story. They were taken to jail and searched. Secreted in their clothing were found four sticks of dynamite, each six inches long and one and a half inches thick; fuse long enough for four "blowings;" a box of dynamite caps wrapped in cotton wick, and a 38-calibre self-cocking revolver, every chamber loaded. A warrant was sworn out against the men for carrying deadly explosives and concealed deadly weapons.

When asked as to what they were doing with these explosives on their persons the men gave as an answer that they had been requested to bring them to this city by some Mill Hall man. Afterwards the two men attempted to make it appear that they had met each other for the first time at Mil. Hall. The one gave his name as Scott, but Officer Brendel told the fellow that his correct name was Barry, and that he lived at Bellefonte at one time. This the fellow admitted was true. He also admitted that he was at Williamsport a few nights ago, which strengthens the suspicion that he was one of the gang of burglars who operated in that city this week. The other fellow gave his name as O'Brien, but refused to tell where he hailed from.—Lock Haven *Democrat*.

[The above-named Barry is none other than the often-heard-of Thomas Barry, who has figured in more than one bad scrape throughout the State.—ED.]

Band Tournament.

The band tournament of the Penn'a band association will be held at Philipsburg this year. A meeting of citizens of that place was held Monday evening for the purpose of making preliminary arrangements for the tournament which is to be held in June.

WORKING GIRLS.

WILLING, ABLE, AND AMBITIOUS,

But Often Held Back by an Illness They do not Understand.

[SPECIAL TO OUR LADY READERS.]

A young and intelligent working-girl of Brooklyn, N.Y., graphically pictures the working-girl's life.

Day in and day out, month after month, she toils. She is the bread-winner of the family, and must work that others may live. Rain or shine, warm or cold, she must get to her place of employment sharp on time. With the sunshine and gladness all crushed out of her life, she goes on until she falls.

Oh! this pictures only one of thousands. Some work in cramped positions, but the great majority of working girls, so to speak, live on their feet.

Among the latter the symptoms of female diseases are early manifested by weak and aching backs, pains in the lower limbs and lower part of the stomach. The "monthly period" is irregular: with some profuse, with others a cessation. The sure symptom, leucorrhœa, is present, and with faintness, weakness, loss of appetite and sleep. She may be sure that a womb trouble assails her. She knows not where to go for aid.

Miss Mary Smylie, of 2078 Susquehanna Avenue, Kensington, Philadelphia, Pa., urges her fellow working-girls to have faith in *Lydia E. Pinkham's* Vegetable Compound. She says: "I am a working-girl, and must stand eleven hours every day. I have suffered terribly from painful menstruation and kidney trouble; and my head was so dizzy I could hardly see. I began to take your Lydia Pinkham's Compound some time ago. It was highly recommended to me by a friend. Now I feel like a different girl: no more aches and pains. I am praising it to every one. Our Druggist sells lots of it.

THERE IS TROUBLE.

Mine Owners Put in Electrical Machinery in Tennessee.

Knoxville, Tenn. April 18.—Serious trouble arose this morning at Coal Creek. The proprietors of the Royal mines recently put in electrical machinery at a cost of $50,000 for bringing coal out of the mines. Ten skilled workmen were brought from Ohio and Pennsylvania to operate the machinery. The old employees of the mine objected to the employment of these men and bad feeling arose. This morning three of the old employees with one Hendricks as their leader, met three of the new men at the company's store by chance. Some hot words were spoken when Hendricks drew a revolver and shot one of the party, named Morgan. Morgan returned the fire, shooting Hendricks and fatally wounding him. He lived but a short time. Morgan and the other two left and soon after were pursued by a party of thirty-five miners, who were swearing vengeance against them if caught.

At 6 o'clock this afternoon nothing had been heard of them, and the supposition is that they escaped. All the miners went out of the mines, quitting work. There are some 300 of them. Further trouble is feared and the superintendent of the mines was in Knoxville this afternoon to make arrangements for protection of his property. The sheriff of Anderson county, where the mine is located, is on the ground endeavoring to restore order. Nothing has been done yet except by the civil authorities and it is to be hoped the trouble may be settled without calling out the militia.

Quarrel in a Church.

Scranton, Pa., April 18.—Charges affecting the character of Rev. August Lang, the pastor who succeeded Rev, Carl Weisswasser, when he so suddenly left Scranton two years ago, while serving at the Hickory Street German Presbyterian church, were preferred to the Lackawanna presbytery to-day. These charges grow out of factional disturbances in the church ever since the Weisswasser episode and connected Rev. Lang with a young lady member of the choir. They also resulted recently in the ousting of a portion of the board of trustees who were unfavorable to Mr. Lang and the choosing of others in complete harmony with him.

Out of these has also grown a case again Peter Hartman, one of the deposed trustees, who is under bond to answer at the United States court a charge of sending an obscene letter. Another charge brought before the Presbytery to-day was that against Elder James Nichols, of Carbondale, who claims that he is so perfect in grace that he cannot sin.

Three churches, one at Wilkesbarre and another at Dushore and the other at Newton, which had so fallen in membership as to be unable to support themselves, were ordered disbanded.

Wheat Jumped Yesterday.

Chicago, Apail 18.—Wheat jumped 1½ cents to-day, making an advance of 4 cents in three days. There was a big scramble among the bears in consequence. The market closed as 1 cent advance over the closing price last night—57½ cents. The first sales to-day were 57½ to 58. At noon there was a flurry, and everybody watched Pardrige, whose short line is counted in the millions, but the brokers of the plucky plunger said he covered a lot of May wheat to sell double as much for July in his effort to check the rise.

If Pardridge had turned in to cover a panic of disastrous proportions would not have been avoided. The natural explosive forces at work in the market gave it a boost of three-quarters of a cent at midday in about two minutes. The most sensational report on the floor was that all the big houses had called 10 per cent margins on all of Pardrige's short trades, but their bluff was called.

A Jury Illegally Drawn.

Lancaster, Pa., April 18.—When the case of ex-Banker E. K. Smith, of Columbia, charged with embezzlement, was called for trial this afternoon, counsel for the defendant created a sensation by challenging the entire jury on the ground that the jurors had not been properly drawn. The records of the court were produced, showing that the jury commissioners before entering upon their duties in January had not taken the oath prescribed by law, but another oath.

After argument Judge Bruba er said the point was apparently well taken and the jury illegally drawn, but said he would hold the matter under consideration until to-morrow. Smith was then discharged from attendance this term. If the point is sustained it will affect all the trials held thus far this year and will prevent the holding of court until the jury wheel can be refilled.

Murderers in Luck.

St. Louis, April 17.—Governor Stone this afternoon respited Hentz and Kaiser, the alleged murderers of Stockman Brown, who were to hang on Saturday, until May 11. The respite is granted under assurance by the attorney for the defense that important evidence will be offered, showing that the condemned men are innocent of the alleged murder.

Five other murderers sentenced to be hanged on Saturday have been respited until May 11. The governor says that the filing of so many new papers on the eve of executions compelled him to grant the respites in order to properly investigate the applications for clemency.

"A HANDFUL OF DIRT MAY BE A HOUSEFUL OF SHAME." CLEAN HOUSEKEEPING

SAPOLIO

REV. R. LEIGHTON GERHART.

Bellefonte's New Rector—Sketch of His Active Work in the Church.

Rev. R. Leighton Gerhart was born Oct. 8, 1845, at Gettysburg, Pa., the son of Rev. E. V. Gerhart, D. D. LL. D., who for 18 years was president of Franklin and Marshall college Lancaster, Pa., and now president of the theological seminary of the Reformed church in the same city, which position he has held for over 25 years. He took his academic training in the preparatory school of Franklin and Marshall college, and then entering the freshman class of the college pursued the the regular course to the latter part of the junior year, when ill health compelled him to abandon his studies. In the spring of 1868 he entered the theological seminary of the Reformed church, pursued the regular course of studies, and graduated in 1871. He was immediately called to the pastorate of the Reformed church at Whitemarsh, Montgomery county, Pa. In 1873 he was married to Carrie the eldest daughter of Hon. John Cessna, L. L. D., of Bedford Pa. In 1876 Rev. Gerhart was called to pastorate of the Riegelsville Reformed church, Bucks county, Pa., which he served six and one-half years; then entered upon his third pastorate at Lewisburg, Pa. Again at the end of six and one half years he accepted a commission from Home mission board of the Reformed church and went with his family to Kansas City, Mo., where he labored for two years, and was instrumental in the organization of St. Paul's church of that city and the erection of the present house of worship. In 1878 Rev. Gerhart was called to the pastorate of the Bedford Reformed church. At the opening of the Patomac synod in York, in the fall of 1894 he was elected by a large vote to the highly honorable position of the presidency of that body, one of the most intelligent and energetic synods in that church. He was still presiding officer of the synod when called to Bellefonte. For over 13 years he has been editor of the Sunday school paper in that church. Mr. Gerhart accepted the call to Bellefonte in February of the present year and preached his first sermon on March 31. While a boy, with his father's consent, he went to New York, shipped on board of a clipper ship and spent over nine months before the mast as a sailor, doubling Cape Horn and visiting San Francisco, returning home by way of the Isthmus. In 1880 Rev. Gerhart had the honor to receive an autograph letter from Lord Tennyson, poet laureate of England, thanking him for a review of his poems published in the Mercersburg Review, the then leading periodical of the Reformed church in this country.—D. S. Dunham in the *Hornet*.

WHAT is the purpose of some imaginary person in crediting to the late Archduke Johann, of Austria, the military successes won in distant parts of the world. When the Chilean Congressional party were winning their victories, some one came out with a story that he had not perished at sea, but was leading the Chilean forces to victory. No one was able to discover him after the Chileans had established their republic; but undiscouraged by a little thing like that, the fable reappears with the revision that Field Marshal Yanagata, of the Japanese armies, is really the Austrian Archduke. As Marshal Yamagata's family and record are well known, the stillness of the yarn is self-evident. The dead Archduke made himself famous by his love for private life, but never showed any military genius. Why cannot the inventors of fiction leave him in peace in his ocean grave?

A VERY interesting story, which we think will be new to most of our readers is told on the 11th page of the martyr missionary, Whitman, and how he gained for the United States that northwest corner of the Union now embraced in the States of Oregon, Washington and Idaho. Whitman fell a victim to the superstition and ignorance of the people he labored to direct in the paths of civilization and Christianity. His memory survives in the Northwest and his name is perpetuated in Whitman College in Walla Walla, Washington, near where Whitman lived and died. The college is still a little one and is struggling with adverse conditions. It needs aid—funds to sustain and develop it. It is hoped that some of those who read this record of Whitman's timely and patriotic services will be moved to contribute towards making Whitman College bear some just relation to the worth of the martyr missionary by being made a strong and well equipped educational institution such as is still needed in the extreme Northwest.

While it seems at times as if the public school system were in danger of being overloaded with features that do not pertain to its main purpose, every once and awhile some new development attracts by its evident usefulness. In the tenement district of New York one of the schools has been fitted up with a bath room with twenty shower baths in it, and it looks as if it would prove an unmixed blessing for both teachers and pupils, as the condition of children who attend school in such districts, not only in New York but in other cities, is such as not to warrant description. Baths at school, therefore, seem to fill in the category of improvements that improve.

Rivans Tabules are always ready.

A NARROW ESCAPE!

How it Happened.

The following remarkable event in a lady's life will interest the reader: "For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I couldn't sweep a room without sitting down and resting; but, thank God, by the help of New Heart Cure all that is past and I feel like another woman. Before using the New Heart Cure I had taken different so-called remedies and been treated by doctors without any benefit until I was both discouraged and disgusted. My husband bought me a bottle of Dr. Miles' New Heart Cure, and am happy to say I never regretted it, as I now have a splendid appetite and sleep well. I weighed 125 pounds when I began taking the remedy, and now I weigh 130½. Its effect in my case has been truly marvelous. It far surpasses any other medicine I have ever taken or any benefit I ever received from physicians."—Mrs. Harry Starr, Pottsville, Pa., October 12, 1892.

Dr. Miles' New Heart Cure is sold on a positive guarantee by all druggists, or by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles $5, express prepaid. This great discovery by an eminent specialist in heart disease, contains neither opiates nor dangerous drugs.

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DONQUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

153-157 Fifth Avenue, N. Y.

NEW YORK FASHIONS.

Easter Millinery, Taffeta Silks, Accessories, Spring Capes Parasols.

Easter millinery may be termed fantastic, so many divers colors and materials are grouped with such *Abandon*, and very light weight rough straw hats in white or colors, have more than filled all predictions regarding their popularity, being not unfrequently covered to such an extent with flowers, that only an inch or two brim is visible; then again the sole trimming is a cluster of ostrich feathers and roses; this style applies for the most part however to shapes turning up at one side. At present, the "Continental," and two or three varieties of the Napoleon shape are in especial prominence; but as the season advances, larger shapes will be more generally worn, and on young persons tilted to one side, with crushed roses under the brim. Pale green straws trimmed with violets, lilies-of-the-valley, and white lace, with really youthful lace beneath, are thoroughly harmonious, and white rough straws and Dresden ribbon, are the very personification of simplicity.

THE FERN GINGHAM

conveys no adequate idea of the novel patterns and lovely color combinations in cotton goods, classed under this head; such perfect imitation of crepons, china silks, dotted or striped wools, that the illusion is only dispelled by close examination. Stripes, are in great predominance particularly the beautiful Dresden stripes, and these lovely little floral sprigs in "all over" style, are quite as charming as when arranged in single file, flanked on either side by a narrow plain colored stripe.

TAFFETA SILKS

illustrate a similar fancy for small designs, and here again, stripes are most in favor, changeable hues with very minute dots, reappearing in various modifications of last season's styles. Plaided silks afford a contrast in brilliancy of color and design to any others, and are in great demand for waists, or for sleeves and front on dark crepons, or fronts for Eton jackets.

ARTIFICIAL FLOWERS

brighten up or disfigure costumes (as the case may be) to an unprecedented extent, and the usual Easter "craze" for violets, is supplemented by an almost equal one, for crimson roses, which are more generally becoming because less trying. Great discrimination should be used in wearing flowers on a collar or cape, by persons no longer young, as the contrast is sometimes plainfully apparent. The newest collar is shaped much like a clergyman's stole, the ends falling straight down to the waist, and finished off with white or black lace, and a cluster of rosebuds or violets, which are also placed at intervals on the collar. A handsome vest front or yoke is an absolute necessity, and here the blouse front is most *apropos*, filling up the space left by the open collar. Between immense sleeves, shoulder trimmings, lace collars, fluffy fronts and short jackets, bad indeed must be the figure that cannot now be made to look at least presentable.

THE ENSEMBLE

of many Spring capes is marred by an overplus of trimming—a second flaring cape or very deep collar, with an exceedingly full neck garniture, produces a bristling effect, opposed to anything like a graceful outline. Pinked black or colored silk ruchings exaggerate this fault, therefore plain satin covered by jetted lace is a rest to the eye.

ALL FASHIONABLE MATERIAL

and styles seem concentrated in parasols—plain, narrow stripes, changeable or chine effects, very bright plaids, perforations worked in black or colors, plain white silk and chiffon ruffles, or black chiffon on all fashionable hues, are leading styles. A stylish fancy is to drape parasol ribs in silk, with either flowers or deep black lace points in the entervening spaces; or on white silk garlands of pink rosebuds or violets depend from the rosette at the top in some cases almost covering the parasol; but it goes without saying that flower parasols are the best adapted to carriage or piazza use.

VERONA CLARKE.

Judicial Apportionment Bill.

The senate committee on judicial apportionment held a meeting yesterday at Harrisburg to give the representatives of Cameron and Clearfield counties a hearing. Captain Johnson, of Emporium, appeared for Cameron county, and asked that the present scheme of attaching Cameron county to Potter and McKean as embodied in the house bill be permitted to remain. This separates Cameron from Clinton county. The representatives of Clearfield county objected to going in with Clinton. The committee simply listened to the arguments, but took no action.

The Best Spring Tonic.

A spring tonic which all beauty-seekers should take is a two mile tramp each day. When it rains, a small hat, a waterproof and a pair of rubbers are required. April showers are admirable for producing May flowers in the cheeks. Get up an hour earlier and walk every morning.

Closing Dance.

On Tuesday evening Miss Minnie Brew closed her term of dancing school with an appropriate assembly. An orchestra was secured for the occasion and the music was excellent. A large number of students from State College and many visitors in town were present.

THE FOURTH OF JULY.

What the Undines Will Do on That Day.

The Undine Steam Fire Engine company, of Bellefonte, are already in the field and scheduled to celebrate the National holiday, the glourious fourth of July, with a monster picnic at Hecla park, on the line of the Central Railroad of Pennsylvania. They have not as yet formulated a full program for the day but they have decided to invite the fire companies from the surrounding towns and have prize contests. There will also be band contests for which suitable prizes will be awarded, base ball games, races of various kinds, all manner of out door sports and amusements; an excellent dinner and supper and a good dance afternoon and evening with the best of music by a well-drilled orchestra. The Undines are a progressive company and when they undertake to do a thing they do it right, and this fact alone presages a glorious time for all who may attend their picnic at Hecla park on the coming Fourth.

New Sheep Disease.

We are informed by John R. Lee, farmer beyond Tusseyville, that a new disease has broken out among some sheep which he purchased some time ago from a dealer. They are of the Shropshire breed and came from Canada. He bought ten head, and had a number of lambs. The sheep seem to have a sudden attack of some disease that causes a violent shaking and jerking of the head and the animal soon drops over dead. The sheep have shown no signs of anything being wrong before the spasms aforesaid set in. He lost three sheep and fourteen lambs by this strange disease. While shoeing a horse under the overshot of his barn, one of these sheep, apparently well, stood only a few yards from Mr. Lee, it suddenly began to shake its head in a lively manner and dropped over dead.

What seems singular, these Shropshire sheep have all been kept and fed among Mr. Lee's other sheep, yet none of the latter have had an attack of this trouble. —*Reporter*.

That Bar Meeting.

We have been requested to republish the following:

On Monday afternoon a meeting of the Centre County Bar Association was held in the court house to take preliminary action on the death of Aaron Williams, Esq. one of its most respected members. C. M. Bower, Esq., presided, with G. W. Rumberger, as secretary. The following persons were appointed a committee on resolutions: Clement Dale, chairman; John Blanchard, J. C. Meyer, Ellis L. Orvis and John F. Potter. The committee on resolutions was instructed to report on Monday, April 29th, being second week of court, at 10 o'clock a. m., to which time and place the meeting then adjourned.

G. W. RUMBERGER, Secretary.

Lots of Music.

Bellefonters were exceptionally favored on Thursday evening with an abundance of music. First came the Coleville band, discoursing some of their always-sweet strains, and then the Bellefonte band which, by the way, is so metamorphosed as to be almost unrecognizable, made its appearance. This is the first time in months this organization has appeared in public and it created a good lot of surprise by the beautiful music it rendered. Both bands gave a number of serenades around town, the latter finally winding up at Achenbach's ice cream parlors, where they were all treated by the genial proprietor.

Practical Advice for Tree Planters.

The council of the Pennsylvania Forestry association, desiring to encourage the observance of Arbor Day, has issued a few valuable suggestions which should be of practical service. Included in the circular sent out is the advice to select a small rather than a large tree for planting and a tree that has had its roots well bunched by frequent earlier removals than one that has been removed for the first time. Trees should not, as a rule, be planted deeper than they were before being removed.

Mikado and Emperor Meet.

Berlin, April 18.—A telegram from Tokio says that the mikado has expressed a desire to visit Pekin and discuss with the Chinese emperor the project of an alliance. He proposes also to invite Siam to allay herself with China and Japan.

A dispatch from St. Petersburg says: "The newspapers here agree that the cession of mainland territory to Japan will compel Europe to intervene to procure some modifications of the treaty as will safeguard European interests."

Not a Big Showing.

Washington, April 19.—Commissioner Miller, of the internal revenue bureau, gave to Secretary Carlisle his official estimate of the returns under the income tax law. The commissioner says: "Telegraphic advices received from the collectors of the several internal revenue districts indicate that the aggregate amount of income tax shown by the returns which were filed before the 16th instant will be about $14,365,000. Delayed returns and corrections, it is believed, will considerably increase this amount. The total expenditures on account of the work, including necessary salaries and allowances, to the end of the present fiscal year will not exceed $135.000.

Children Cry for Pitcher's Castoria.

GREAT BRITAIN AND NICARAGUA

On the Last End of the String the Latter Will Pay the Indemnity.

Washington, April 19.—Official confirmation of London despatches that Nicaragua had been informed that her counter proposition was not regarded as satisfactory by Great Britain was received here to-day. It is not doubted that in the end Nicaragua will pay the indemnity demanded, or offer to Great Britain in lieu of the $75,000 a part of her territory. The report has reached here that Mr. Gosling, the British minister to Central America, declared in Guasemala, a few months ago that "England especially wanted some interest in Nicaragua with a view to preventing the Yankees from controlling absolutely the Nicaragua canal." This statement it is said, was made publicly and without reserve.

The particular patch of territory most available for this purpose would be the so-called "Corn islands." These islands are situated in the Atlantic ocean about forty miles from Greytown. They would be of great value to Great Britain for a coaling and nayal station, and an effective British sentinel over the Nicaragua canal. It is said to be absolutely impossible for Nicaragua to immediately comply with Great Britain's money demand, as she has not $75,000 in her treasury.

There are those who suggest that if Nicaragua should propose to cede the Corn island to Great Britain as an equivalent for the "Smart money," the immediate, this proposal might be regarded as a shrewd move to force the hand of the United States. Nicaragua is not suffering for the lack of diplomatic adroitness in her representatives either abroad or at home.

How Holidays May Be Observed.

Washington, April 19.—The postmaster general to-day amended the postal laws and regulations regarding holidays. The amendment states that postmasters may observe as holidays January 1, February 22, May 30, July 4, the first Monday in September, known as Labor Day, December 25, and such other days as the president of the United States or the governors of the respective states may designate as fast or thanksgiving days or proclaim specially as holidays. On other occasions their offices can be closed only after permission obtained therefor from the department. Upon holidays postoffices must be opened sufficiently to meet fairly the public convenience. Mails must be made up and dispatched as on other days. When a legal holiday falls upon a Sunday the following Monday may be observed, unless otherwise specially provided for by state authority.

The Engine Whistled.

Williamsport, Pa., April 19.—The foolish desire of a boy to hear the whistle of a locomotive might have cost a number of lives yesterday on the Beech Creek railroad near Gillentown. The crew of a switching engine found the track obstructed with stones and railroad ties. The obstruction was at a sharp curve on the edge of a fifteen feet embankment and a passenger train was due a short time after the discovery of the attempted wrecking was made. Preston Watson, a half-grown boy, was arrested to-day and confessed he obstructed the track so that he could "hear the engine screech." Watson was committed to jail without bail.

Wild Ducks.

Last week large flocks of wild ducks were seen about the different mine banks, east of Bellefonte. At this time of the year there usually is considerable water on the mud dams, forming a small lake, and a good place for ducks to gather without much danger of being molested. This spring, however, gunners in that section were on the lookout for them and Mr. Frank Wion succeeded in killing eleven in one day on the dam at Nigh bank. There were also a number killed at Taylor bank.

IRVIN HOUSE LOCK HAVEN, PA.—The hom of Commercia men. The paradise for th weary traveler, and the best hotel to sto at in Lock Haven. Free bus to and from a trains.

S. WOODS CALDWELL, Prop

THERE is but one way in the world to be sure of having the best paint, and that is to use only a well-established brand of strictly pure white lead, pure linseed oil, and pure colors.*

The following brands are standard, "Old Dutch" process, and are always absolutely

Strictly Pure White Lead

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

* If you want colored paint, tint any of the above strictly pure leads with National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

Send us a postal card and get our book on paints and color-card, free.

NATIONAL LEAD CO., New York.
Pittsburg Branch,
German National Bank Building, Pittsburg.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silver Tea Spoons *Free*, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Sivereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only.

Price of Silvereen set $2.00.

TOLEDO SILVER CO.
f1-3m TOLEDO, OHIO

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The most common result is

RHEUMATISM

for which S. S. S. is the most reliable cure. A few bottles will afford relief where all else has failed.

I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to more than twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly, and am now a well man, completely cured. I can heartily recommend your wonderful medicine to anyone afflicted with this painful disease.

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them.

ACHE

But after all sick heads that here is where we make our boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail

FREE TRIALS convince the skeptic and point the way which if followed leads to VIGOROUS HEALTH FOR MEN

THE PASTILLE CURE TRADE MARK FOR NERVOUS DEBILITY

Prof. HARRIS' SOLUBLE MEDICATED Pastille

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE. When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

WASHINGTON LETTER.

Washington, April 22, 1895.

From our Regular Correspondent.)

Republicans are interested observers of the rumpus in the democratic party which Mr. Cleveland has stirred up over the silver question. They have expected for some time that the democratic party would split into silver and gold factions before the opening of the presidential campaign, and those expectations seem now to be in a fair way of materializing into facts. They are merely amused by the chimerical assertions of certain of Mr. Cleveland's followers, that the republican party would support Mr. Cleveland on a single gold standard platform. They are quite as much amused by the assertion that the republican party, outside of the extreme western states, is a gold standard party. Of course it is needless to say to any intelligent republican, and most republicans are intelligent, whether he lives north, east, south or west, that the republican party is not, never has been and is not likely to be a single standard party.

The republican party has, since the question has been raised, repeatedly declared in its national platforms in favor of bimetallism, which the Century Dictionary thus defines: "The use of two metals as money at relative values set by legislative exactment; the union of two metals in circulation as money at a fixed rate. Specifically, that system of coinage which recognizes both coins of silver and coins of gold as legal tender to any amount, or the concurrent use of coins of two metals as a circulating medium at a fixed relative value." There is no indication that the next republican national convention will do otherwise than reaffirm that declaration. There is only one single standard gold party, and that is the Cleveland wing of the democratic party.

Even rock-ribbed democrats had to smile when the official announcement was made that the Treasury department would no longer collect and disseminate statistics relating to the manufacture of tin and terne plate in the United States. The reason was plain. Every publication of figures showing the increase of this industry, which was one of those established by the McKinley tariff law, was officially giving the lie to every democratic editor and stump speaker who took part in the last Presidential campaign, all of whom had declared in the most positive terms that there was no such thing as the manufacture of tin and terne plates for commercial purposes in the United States, and predicted that three months after the election it would be impossible to find an American tin plate factory at work. But the makers of the McKinley law knew what they were about. They gave the manufacture of tin and terne plate such a firm footing in the United States that it has continued to grow, although its growth has been slow since the enactment of the democratic tariff. Had the republican party continued in power there would today have been no need to import a pound of tin or terne plate.

Secretary Morton continues to make an exhibition of himself, through his daily newspaper interviews on the beef question. He seriously presents arguments to prove what everybody has known—that the price of beef was forced up and kept up by the beef trust, and then just as seriously announced his inability to do anything to help the people. Really he is a very funny little man. True, he talks too much, but his talk amuses the country, and in these "hard times" the people need all the free amusement they can get. His latest interview advocates the single gold standard of finance.

That there are a number of hungry democrats still unprovided for is shown by the number of applicants for the vacancy in the Deputy Controllership of the Treasury, caused by the death last week of Hon. Charles H. Mansur. One of these applicants—an ex-Congressman—is charged with having circulated a petition asking for the office as soon as it was announced that Mr. Mansur's illness would probably be fatal. No matter who gets the office this ghoul should not.

Secretary Gresham is quite touchy over that apology demanded from Spain on account of the firing on the Allianca, and which has never been made. It is said that an old personal friend of his attempted to jolly him a little about it and that he quickly made it plainthat it was a forbidden subject. The new Spanish minister is expected to arrive here in a few days, and that his arrival will shortly be followed by an apology from his government for firing on the American flag or by a demand from his government that Secretary Gresham apologize for having made the original demand. No one is ever surprised at anything that occurs in connection with our foreign relations, these days.

The Food Fish Supply.

The good fortune that has decreed that the present rise in beef and other meat products should fall athwart the shad season, while shad are plenty and selling at reasonable prices, should not be rendered nugatory so far as the people of this Commonwealth are concerned by legislation designed to destroy the shad and other valuable food fishes of the State. Fish are among the best of food at any time and under any conditions, and their value is greatly increased when as at present they can take the place of high priced meats.

The present situation in the meat supply should teach as never before the value of legislation for the protection of propagation of fish. No food article can be propagated and increased so rapidly as fish, if properly protected, and their element, the water, which is useless for the cultivation of other forms of food. Better still, the large streams and lakes are public property and if prolific in fish the common people secure the benefit without the possibility of exclusion. It is only necessary that the fishing shall be intelligently controlled so that it may not prove destructive to the fish.

Women in the Pulpits.

The ladies who occupied many pulpits in this city yesterday acquitted themselves very creditably. Whether the novelty of hearing women preach attracted many people or not, the services were very well attended, and the opportunity to do good was correspondingly great.

Some of the discourses were eminently practical and intensely interesting. They gave an insight into the work and purpose of the Young Women's Christian Association that was not general before with a great class of people. In this they have, no doubt, accomplished much for their organization in this city.

There can be no question that young women are exposed to as many temptations and dangers as young men. Since the "new woman" has extended the field of her activities into pretty nearly every line of business in competition with men she is exposed to many influences unknown to the women of a former generation. This is given as a chief reason for the existence and work of the association. It is a sufficient reason. The young woman of to-day is as much in need of organized moral support as the young man.

The Work of Albert Lynch.

Albert Lynch, whose work is becoming so much more generally known to Americans through his drawings in *Scribner's Magazine* and his cover designs for *The Ladies' Home Journal*, is a Peruvian by birth, but of English parentage. He is only thirty-three years of age, and of extremely retiring disposition. He is unmarried and lives in Paris. The young artist commands the highest prices for his work, his smallest water color paintings readily selling for $600 to $900 each. In 1893 he received the Salon's first prize for his beautiful panel of "Spring," showing a single figure. This picture won the admiration of the French art critics and the public to such an unusual degree that the painting was sold for a fabulous sum to a private Paris buyer. Recently *The Ladies' Home Journal* acquired all publication rights to this painting, and it will serve as one of the cover designs for that magazine. The next issue of the *Journal* will also have a design by Lynch, portraying his conception of a woman's ideal costume. A succession of other cover designs by Lynch will follow these two.

Now is the Time.

The benefit to be derived from a good medicine in early spring is undoubted, but many neglect taking any until the approach of warmer weather, when they wilt like a tender flower in a hot sun. Something must be done to purify the blood, overcome that tired feeling and give necessary strength. Vacation is earnestly longed for, but many weeks, perhaps months, must lapse before rest can be indulged in. To impart strength, and to give a feeling of health and vigor throughout the system, there is nothing equal to Hood's Sarsaparilla. It seems perfectly adapted to overcome that prostration caused by change of season, climate or life, and while it tones and sustains the system it purifies and renovates the blood.

State Teachers' Association.

Mt. Gretna has been selected as the the place for the next meeting of the Pennsylvania Teachers' Association, is the headquarters of the Pennsylvania Chautauqua. It is a large and readily accessible forest park, within an hour's ride from Lancaster, Reading and Harrisburg, and but a few miles from Lebanon. The railroad connections on the Reading road is made by way of Lebanon, and at Conewago on the Pennsylvania line. The attendance will be larger than usual at this meeting in the woods, which will be held July 2nd, 3rd and 4th.

Changing School Books.

The House in Harrisburg should be in no haste to forward to its passage the McQuown text book bill, passed by the Senate and made a special order on second reading in the House for Monday night. Let the character, intent and wording of the bill be more fully ventilated and discussed before it is adopted.

The present law in this State forbids a change in any public school text book oftener than once in three years after its adoption. Thismay be too short a term and extending it to five years might be wise; but the McQuown law does not do this. It does much more. It gives a monopoly for five years to come to every publisher whose books are now in use. Still worse, by permitting a change only once in five years, and at the same time for all text books, it renders it impossible to change school books piecmeal, so distributing the cost of change and improvement. Under the McQuown bill all the changes must be made at once or not at all.

By existing law, when a school book is selected it cannot be changed sooner than three years, but the different books reach the end of their term at irregular intervals and a district can change its arithmetics one year, its readers another and so on. The proposed law takes all the books now in use. Irrespective of their merits it extends them all five years. For that time the lucky publisher who supplies them can advance his price. He is safe. No change can be made. When five years are up all the school books come up for change, then or not at all. It will be costly business to change all at once. The old ones will be kept. Five years more of monopoly will be before the publisher.

This is unsafe. Extend the present term of three years to five years, but let it be, as now, a different term for different text-books, so that districts can alter piecemeal and take advantage of good offers as they come, now for text-books in one study now in an other. If the real object of the bill is to prevent "frequent changes in text-books" this will do it, and such a measure will run no risk of creating a monopoly.

Comptroller Eckels Declines.

Washington, April 23.—H. H. Kohlsaat, the new owner of the Chicago Times-Herald, offered Mr. Eckels, the comptroller of the currency, a large salary, said to be nearly $10,000 a year, to go to Chicago and become the financial editor of that paper. In view of the importance of financial questions in business circles and politics, Mr. Eckels saw in this editorship an opportunity to wield great influence in the west, and was at first much inclined to accept the generous offer. On consultation, however, with the other members of the administration he deemed it his duty to remain in his present office until the expiration of Mr. Cleveland's term, and wired his declination this afternoon.

How to Succeed.

Boys, the world is wide. If you wish to be somebody "pitch in." The brave always have friends. Where others have gone you can go. If the old track don't suit, make new ones. Success is never obtained without effort. If you fail once, try again. If you fall down, get up again. If it's dark, strike a light. Are you in shade? move around; for, if there's shade on one side, there is sunshine on the other. Take time, boys, don't hurry too fast, Go slow, especially till you know the road or become acquainted with your team. Mind your own business. Don't stop to retail gossip—but go right on, straight ahead, and—you'll get there.

A Big Scheme.

One of the greatest schemes yet recorded is now under consideration by a syndicate of Philadelphia capitalists which is, to buy all the electric lines between Williamsport and Philadelphia for the purpose of establishing an electric railway trunk line for the hauling of freight and mail in addition to the passenger service. The line between Philadelphia and Williamsport is almost complete and only between Centralia and Ashland and Shamokin and Williamsport would it be required to build to any great extent. If it is possible for the syndicate to get control of the lines, these additions required will be built at once and the great electric trunk line started.

Blast Furnace Employes Dissatisfied.

Sharon, Pa., April 23.—A general strike among the blast furnace employes through the valley may take place this week. The blast furnace employes in New Castle, numbering seven or eight hundred, went out on strike to-day for a raise in wages equal to those paid in 1892. The wages of the furnace men in Sharpsville, Sharon and Middlesex are considerable lower than those paid in New Castle and the strike in New Castle may cause the men in this section to also go out. One-fourth of the pig and bessemer iron of the United States is manufactured in this section.

A Corner Stone Laid.

Williamsport, Pa., April 23.—This afternoon the exercises attending the laying of the corner stone of Bradley hall, of the Dickinson seminary, were held. Addresses were made by Mayor Elliott, Judge Metzger, Bishop Thomas Bowman, President E. J. Gray and others. Bishop Bowman and President Gray performed the impressive ceremony of laying the corner stone as laid down in the ritual of the Methodist Episcopal church. Bradley hall, the new art and music building of Dickinson seminary, will be named in honor of Hon. Thomas Bradley, of Philadelphia.

The conference on the anthracte coal trade between gentlemen representing various New York interests and the Reading officials resulted in nothing. The New Yorkers have been extremely slow in learning the Reading's position. For a year and a half that company has constantly demanded 21 per cent. of the output of anthracite coal and insisted in season and out that it would take no less. The Individual Operators Committee were so informed many times last year, and at the presidents' meeting in the early part of the winter Mr. Harris explained his position again and again. The result of the meeting was that the New York gentlemen were informed that the Reading Company would not recede from its original position and that the receivers could not submit to arbitrate the difficulty. It was further suggested that there would be no necessity for arbitration if the New Yorkers would divide up the balance of the coal output among themselves. This leaves the matter exactly where it was, but it may bring about some interesting developments in coal circles.

COURT PROCLAMATION—Whereas, the Honorable J. G. Love, President Judge of the Court of Common Pleas of the 49th Judicial District, consisting of the counties of Centre and Huntingdon, and the Honorable Benjamin Rich and Honorable Corlis Faulkner, Associate Judges in Centre county, having issued their precept, bearing date the 25th day of March to me directed, for holding a Court of Oyer and Terminer and General Jail Delivery and Quarter Sessions of the Peace in Bellefonte, for the county of Centre and to commence on the 4th Monday of April being the 22nd day of April, 1895, and to continue two weeks, notice is hereby given to the coroner, justices of the peace, aldermen and constables of said county of Centre, that they be then and there in their proper persons, at 10 o'clock in the forenoon of the 22nd, with their records, inquisitions, examinations, and their own remembrances to do those things which to their office appertains to be done, and those who are bound in recognizances to prosecute against the prisoners that are or shall be in the jail of Centre county, be then and there to prosecute against them as shall be just.

Given under my hand, at Bellefonte, the 25th day of March in the year of our Lord, 1895, and the one hundred and eighteenth year of the Independence of the United States.

JOHN P. CONDO, Sheriff.

WHY do people complain of hard times, when any woman or man can make from $5 to $19 a day easily. All have heard of the wonderful success of the Climax Dish Washer; yet many are apt to think they can't make money selling it; but anyone can make money, because every family wants one. One agent has made $478.36 in the last three months, after paying all expenses and attending to regular business besides. You don't have to canvass; as soon as people know you have it for sale they send for a Dish Washer. Address the Climax Mfg. Co., 45 Starr Ave., Columbus, Ohio, for particulars. d4-10-6m

The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

EUREKA

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

M. P. TUTEN,
Proprietor.

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
ALLEN C. SMITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

GREAT SPRING OPENING
—OF—

Miners' Strike Continued.

The prospect for an early settlement of the coal miners' strike is not promising. The miners have voted unanimously to stand out for 69 cents and the operators are firm in their insistance upon a rate of 60 cents a ton. No conference has been arranged for at which the differences might be considered or possibly bridged, and it is reported the operators' committee declines to consider such a conference.

When the miners convened last week and declared their willingness to submit every point of contention to the consideration of an impartial board for adjustment the situation looked hopeful. This concession, on its face at least, was in accordance with the proposal made by the operators. But the situation changed when the operators' committee appeared before the convention and stated their case. It is reported the committee issued an ultimatum of 60 cents or nothing. Whether that report is correct or not the delegates went back to the miners on Saturday evening, and upon reassembling yesterday voted to continue the strike for 69 cents.

If it is true as reported that the operators' committee declined a joint conference and declined to even submit such a proposition to the association the committee is in error. Settlement can only be reached by mutual consideration and consent. A refusal of such mutual discussion may lead to forcing the miners in temporarily and under protest, or it may lead to surrender on the part of some of the operators, but it cannot lead to the permanent settlement of the dispute which the interests of the region demand.

There is a fault somewhere. Some one has been talking fair and playing false. Whoever it is will be found out in time and will be the subject of merited public condemnation, unless a different course is adopted and a settlement reached.

"Trust Those Who Have Tried."

Catarrh caused hoarseness and difficulty in speaking. I also to a great extent lost hearing. By the use of Ely's Cream Balm dropping of mucus has ceased, voice and hearing have greatly improved.—J. W. Davidson, Att'y at Law, Monmouth, Ill.

I used Ely's Cream Balm for catarrh and have received great benefit. I believe it a safe and certain cure. Very pleasant to take.—Wm. Frazer, N.Y.

Price of Cream Balm is fifty cents.

She Did Not Suffer.

Three months before our first child my wife suffered so from cramps and pains she could not get in or out of the house without help, and was often in bed for two or three days at a time. I obained a bottle of "Mothers' Friend," and after the first application pains and cramps ceased. She continued to use the remedy and suffered no serious inconvenience until the hour of confinement—at which time she suffered but little pain—her recovery was rapid and complete—in fact, she suffered no pain after birth. Her friends say they never saw anything to equal her case. Truly "Mothers' Friend" is a blessing to expectant mothers, and my wife shall never be without it.

E. E. JOHNSTON,
Enfaula, Ala., Dec. 8, 1894.

An Idle Project.

The proposed State of Superior, to be carved out of Upper Michigan, Northern Wisconsin and Northeastern Minnesota, would look pretty enough on the map and leave the dismembered States of fair size and sufficiently symmetrical in appearance. It would make a State all of whose parts would have a common interest in lumber, mining and the lake commerce. Nevertheless, there is no probability at all that it will ever be realized, nor is there any real demand for it, except to flatter an unsubstantial local sentiment and give new places for politicians to contend for.

State architects have amused themselves by carving plans for new States out of old ones since the origin of the Government, but usually to little purpose. Maine was originally a district of Massachusetts but divided from it by nature, and Vermont, claimed by both New York and New Hampshire, repudiated both and secured admission as a State. West Virginia is a child of the war, but all other States have been made out of territories or newly acquired provinces. The projects to divide Pennsylvania, Tennessee, Michigan and California have been mooted for more than a generation, but they amount to nothing, since no State can be dismembered without its consent, and that, in the nature of things, will never be given unless under very exceptional circumstances.

It is always the little end of the State that wants to set up for itself or to join its neighbor, and the big end can see nothing in the movement except a diminution in the powers and importance of the State and a reduction in the number of State taxpayers without any corresponding reduction in the expenses of the State Government. Congress can carve the Territories as it will, but once having carved out and admitted a State the latter is crystalized into solid shape which nothing short of revolution or rebellion is likely to change. For these reasons the proposed State of Superior is a dream which will never have a practical realization.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Address, F. J. CHENEY & CO.

—An exchange tells of a little boy who was accustomed to pray every night for the welfare of the different members of the family. One night after Johnnie had recited his usual petition and was offering a special prayer that God would watch over and bring home in safety his absent papa, he heard his father's voice down stairs and added: "You needn't bother about papa, God. I see he's got home all right himself."

PROF. AMMERMAN WILL LEAD

A "Shingle Social" to be Held.—A Convention Announced etc., etc.

The Ladies' Auxiliary will hold a "Shingle Social" in the Association building, next Friday evening, April 15th. Refreshments consisting of coffee, cake, cocoa and ice cream will be served. Music, games and many other things are on the programme, so that everybody who attends may have a jolly good time. Admission, 15 cents including refreshments.

***

For the tenth consecutive year, Wells, Fargo & Co. have made the clerks at their home office members of the Young Men's Christian Association of San Francisco. A check for $1,360 gives full privileges to 136 young men. There are parents in Bellefonte who won't give their boy $2.00 to become a member of the Association.

***

22,000 young men in 300 different Associations, taught by 750 teachers, is a practical illustration of what the Association, through the Educational department, is doing for young men.

***

A voice from another Association says: Hundreds of people cry against the saloon, and yet they never do a practical thing to break it down. We are keeping scores of young men from forming saloon habits. We believe in prevention more than in cure. Help us, by your money, to keep our boys from going wrong by keeping them occupied with good, clean diversion.

***

The Thirty-first International Convention of the Young Men's Christian Associations throughout the United States and Canada, will be held at Springfield, Mass., May 8—12. This immense gathering will be ahead of anything here-to-fore attempted, as a practical educator and exponent of Association work. Famous speakers, including Gen. O. O. Howard, Rev. T. L. Cuyler, Col. John J. McCook, Mr. Thomas Cookran and D. L. Moody will address the convention. Prominent European workers also have been invited and will be present. The work, spiritual, intellectual and physical, will all be emphasized. The names of the speakers mentioned above, in themselves are a sufficient guarantee of wise spiritual leadership.

***

In the educational work, Mr. Geo. B. Hodge, Educational Secretary of the International Committee, has been untiring in his effort to secure an exhibit of Association Educational work which will be thoroughly representative, illustrative and complete. Immediately following the convention, will be held the Secretaries' Conference at Hartford, Conn. This conference, held annually, has had a powerful influence in unifying and making practical the work of our Association. For practically, it is an institute for General Secretaries and assistants, where young workers are brought into contact with older and wiser heads, and so enlightened on all phases of their many sided work.

***

Don't forget the "Shingle Social" next Friday evening. Come and encourage the mothers and sisters in their efforts to help on the course for young men in our town.

A Late Newspaper Law.

It frequently happens that a publisher receives word from some distant post-master that a copy of his paper addressed to a certain subscriber 'remains uncalled for, party moved-" It is a common occurrence for subscribers to euchre publishers by quietly slipping away and not paying what is due on the paper. The new postal laws make it larceny to take a paper and then refuse to pay for it, and acting on this a newspaper proprietor brought suit against forty-three men who would not pay for their subscriptions, and obtained judgment in each case for the amount of claim. Of these twenty-eight made affidavit that they owned no more than the law allowed thus preventing attachment. Then, under the decision of the supreme court, they were arrested for petit larceny and bound over in the sum of $300 each. All but six gave bond, which six went to jail. A subscriber is in duty bound to pay his subscription the same as any other debt and the law is right and just, as it should be. If he would contract a debt at a grocery he would expect to be made pay for it. The same is true of subscription. He contracted the debt and should be man enough to pay it.

Morton's Indiscretion.

Secretary Morton does not seem to have been appointed press agent for the administration after all. He has been talking so freely and so fully of late it was naturally inferred he had been authorized to communicate the president's views to the public.

The interview given out by Mr. Cleveland yesterday not only destroys the impression that Mr. Morton was the authorized spokesman for the administration, but it indicates a possible break in the cabinet. If there is one thing Mr. Cleveland does not enjoy is for his lieutenant to attract too much attention to politica views other than his own. And if there is one thing he likes it is do his own talking.

—The Street Committee of Village Improvement Society, and all ladies interested in their work, are requested to meet in parlor of Y.M.C.A., Thursday evening at 8 o'clock, April 24, 1895.

Where the Real Trouble Lies.

Among the bills pending at Harrisburg is one to amend the Constitution and abolish the February elections. The bill purposes to transfer the election of municipal officers to the general election in November, and is urged on the plea that so many elections tend to disturb business and the conduct of public affairs.

There is not much in this plea. The real purpose is to check the tendency of the voters in cities to disregard party lines at the February elections, a tendency that should be encouraged instead of killed. At the November elections local issues are always overshadowed by great party principles and the shrewd political managers want the benefit of partisan sentiment at such times to cover the defects of their candidates.

When the managing politicians took the principle out of the Australian ballot by amending the law, first for group markings and later by the "straight ticket" ring at the top of the column, they were probably looking forward to this amendment to the Constitution. Of course, in putting the ring on the ballot they had the immediate object of making fraudulent marking easy. But by getting the election of municipal officers at the same time that State and national offices are filled they will have the double advantage of "straight" party votes and the ticket that can be most easily manipulated.

The country may be suffering somewhat from the frequency of elections, but it is suffering more from the chicanery of the politicians.

Wheat Prospects.

European wheat prospects are anything but encouraging this year, a condition of much importance to American wheat-growers. The area under wheat and rye in Russia is 30 per cent. less than last year; England, Scotland and France are severe sufferers from the winter, and Hungary and Roumania are in similar trouble.

The Department of Agriculture sends out this statement, and the report shows further that European nations are imposing w eat duties that fall heavily on the consumer while protecting the grower for a product his acres fail to return in anything like sufficient quantity to meet the demand.

France imposes a duty of 36 cents a bushel, Italy one of 37 cents, Germany 32 and Sweden 22. Russia has wheat to sell, and does not fear the importation of grain, but protects its flour manufacturers with a duty of 33 cents. The heaviest wheat duty is that of Spain, which country collects 55 cents a bushel, the present selling price of American wheat; but Spain must buy 18,000,000 bushels annually, as the home grain growers as just that much deficient in their harvests.

American grain growers have the European markets before them this year in a way they can derive a wealth of advantage from notwithstanding the heavy duties.

The multitudinous new county people keep pegging away with various schemes in the Legislature. As soon as one meets with bad luck another is brought in to take its place. There is so much persistence in this matter that, in spite of the fact that there is no good reason why there should be any more counties in Pennsylvania, it may be found at the close of the session that a bill has been passed which will permit the formation of a dozen or more new counties within the next few years. People who are not now taking much trouble to oppose this sort of thing will be likely to regard it with the utmost indignation when it is too late.

To Enjoy Life

the physical machinery must be in good running order. A little care—the use of Ripan's Tabules—will give you every morning the feeling that you are "glad to be alive."

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face

and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed.

I continued to take it, however, until I had used nine bottles, and now I am perfectly well." MISS KATIE ROSENGRANT, Ulster, Penn.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

St. Jacobs Oil THE GREAT REMEDY CURES PAINS OF MAN & BEAST

Charged With Criminal Conspiracy

Pittsburg, April 22.—Rev. J. R. Henry and Elders J. W. Hunsher, J. I. Penny, G. K. Smith and J. Kelley Buchanan, all of the Wylie Avenue Cumberland Presbyterian church, were arrested to-night on a charge of criminal conspiracy preferred by Mrs. Hattie D. Lincoln, wife of Rev. C. H. Lincoln. When arrested the defendants were in church holding an investigation of church troubles.

In her allegations, Mrs. Lincoln says that the men did and have wilfully and unlawfully conspired to keep her husband out of the presbytery and that he has been injured morally and physically by the same. The defendants were released on their own recognizance until to-morrow, when they will give $300 bail. Rev. Lincoln has been pastor of the church for a year and for some reason yet unknown was not re-engaged. This is the cause of the trouble.

Does His Own Talking.

Washington, D. C., April 22.—The president, when asked this evening whether Secretary Morton's interview upon the money question might be regarded as representing his views, replied:

"I am in no manner responsible for Mr. Morton's interview and knew nothing of it until I read it in the newspapers. When I have seen fit to say anything to the people on the money question or any other subject, I have thus far found it quite easy to do so directly and on my own account.

Secretary Morton in an interview this afternoon said that whether talking for beef or money he talked for himself only, and not for the president.

An Editor Commits Suicide.

Hartford, Conn., April 22.—George H. Riecker, aged 26, editor of the Bristol Herald and correspondent for the New Britain Herald, committed suicide this morning at the house of his brother-in-law, John Whitmore, in New Britain, by cutting his throat with a knife from ear to ear. The deed was done in a fit of despondency, resulting from drinking. His wife, to whom he was married last June and who is in a delicate condition, was present with his sister when Riecker did the act. She seized the knife, but he drew it through her hand, cutting her badly. His sister also seized the knife with a like result. Riecker then cut his throat, severing the jugular vein.

NOTHING LIKE IT.

Dr. Kennedy's Favorite Remedy Makes Another Remarkable Cure.

(From the Times Union, Albany, N. Y.)

Four years ago, Mrs. Markham, who resides on First street, corner of North Swan, noticed a sensitive spot on her left limb. It was apparently nothing serious, but soon developed into a sore, and before long the limb was a mass of ulcers. Mrs. Markham employed some of our best physicians a dozen or more in all, but she obtained no relief. In fact, was told that nothing could be done for her, so for four years she suffered with these dreadful ulcers, which have eaten their way to the bone.

A little less than a year ago, an acquaintance told her about Dr. David Kennedy's Favorite Remedy, and that he believed she would find relief in using it. Mrs. Markham's four years of suffering had made her skeptical, the more so, as she had obtained no relief from the numerous physicians who had attended her during these years of suffering.

The friend offered to send her a bottle of Dr. Kennedy's Favorite Remedy if she would try it. He did so, and there was such a decided improvement that she concluded to give the remedy a fair test. Today, not a year after taking the first dose, the ulcers have disappeared, all that is left to show what she has suffered is a swelling on the ankle of the left limb, which is fast disappearing.

Mrs. Markham is naturally strong in her praise of Dr. David Kennedy's Favorite Remedy, and feels that but for it she would now be a helpless cripple, if not a corpse.

Such a straight forward endorsement needs no comment, Dr. Kennedy's Favorite Remedy cures diseases when taken according to directions, it acts directly upon the kidneys, liver and blood. In cases of nervousness, dyspepsia, rheumatism, ulcers, old sores, blood poisoning and Bright's disease, it has made pronounced cures, after all other treatments have failed.

A Good Thing and Nothing to Pay.

Just see what Dr. Greene offers to do for all weak and suffering people. He is the most successful living specialist in curing nervous and chronic diseases. His unparalled offer to consult with anyone, free of charge, by letter correspondence, is doing wonderful good. If you have any complaint which you do not thoroughly understand, and which you would like cured, write the Doctor a letter stating just how you feel and what symptoms trouble you. He will answer it, giving a complete description of your case, explaining the meaning of every symptom, and telling how you can surely get well and strong. He gives most careful attention to each letter, and explains your case so thoroughly, that you understand exactly what ails you. All this costs you nothing, you have no doctor's fees to pay, and you don't have to leave your home. The Doctor makes a specialty of treating patients through letter correspondence, and nearly always get well. He is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. Write to him at his office, 5 West 14th St., New York City, and you will undoubtedly be made strong and well.

—A fresh shipment of nice Mackerel just received, at Eureka Grocery store will be closed out at 10cts. each or 3 for 25cts. tf

Japan's Great Gains.

The confirmation of the terms of peace between China and Japan indicates that the diplomatic contest as well as the rough er shock of arms is ended. If there has been much foundation for the report that Russia would not allow the treaty to stand. China would have to refuse to accept it. When Japan's terms are conceded, it may he taken as proof positive that she has no hope for the intervention of dissatisfied Western powers.

The treaty of peace while it does not extort exorbitant terms places Japan in control of the East. It gives her the practical protectorate of Korea, and by the formation of an offensive and defensive alliance establishes very nearly the same relation with China. By the possession of Port Arthur, Sapan retains control of the Yellow Sea; inquiring Formosa she adds to her Empire a large and valuable territory with 2,000,000 population. The treaty opens Chinese ports to trade, from which Japan expects to gain the enlargement of her commeree. The indemnity gives the victorious nation a replenished treasury with which to contemplate new enterprises.

Above all it leaves Japan as the recognized and indisputable leader of the destinies of the rejuvenated East. No nation ever won such an immense advantage from so short and vigorous a war as Japan has done for the conflict begun eight months ago.

Ore diggers in the East Penn Valley between Reading and Allentown, have been reduced in wages from eighty to seventy cents a day, and this leads the Norristown Herald to declare that "the owners of the largest ore mines in Berks county have reduced the wages of their employes to a rate that harmonizes well with free trade. It is a notorious fact that the East Penn Valley ore miners were compelled to accept an average of sixty cents a day from the year 1875 until 1892, when the price was increased to 75 cents and then to 90 cents. Free trade has had nothing to do with it. The East Penn ores are not marketable. They have been displaced by hematic, the Lake Superior and Black Spanish ores, and the only wonder is that the mines have been operated at all the past ten years. But the organs will be organs.

Married.

Mauver—Rodgers.—At the HaagHotel, April 17, 1895, by Rev. G. E. Zehner, **Mr. Henry G. Mauver, of Clintondale, and Miss Josie E. Rodgers, of Nittany.**

A GREAT AGREEMENT.

25,000 Physicians of One Mind.

Food for Strength First.—Medicine for Cure Second.—The Least Food that will give Most Nourishment, the Kind.

In this enlightened age, the old theory held by physicians—to get as much medicine in the least possible time into the system of a patient, even at the expense of stomach, blood, brains, nerves, and often, in the end, life itself—has been abandoned.

The old way was to "dose." If the patient had a tremendous constitution, he sometimes "pulled through;" if not, which was more often the case, that special disease was considered more dangerous, as it had claimed another for its own.

But this is all changed now. All prominent physicians agree on one subject, anyway. It is this—build the patient up first, give him new blood and strength, add flesh to his bones. He's then ready to receive the benefit of proper medical treatment.

To do this effectually, that must be given which will, in the least quantity, produce the greatest amount of vitality,—not a stimulant which quickly reacts disastrously, but a genuine food, a muscle, bone, and blood maker. Such a food was long sought for, and at last discovered in that original and only raw food extract—Bovinine.

By the use of this wonderful life-generating preparation, every organ of the body becoming strengthened by nourishment, naturally begins to perform its ordinary functions, and at once the patient is on the road to recovery.

It is this result, obtained in hundreds of cases where Bovinine has been used, that has caused its indorsement by 25,000 prominent physicians in America.

In addition, thousands who have been benefited can vouch for the wonderful results obtained by the use of Bovinine, for invalids, the old, convalescents, the over-worked, or, in fact, all who have found it necessary to maintain strength, flesh, and vigor.

Raymond's Report.

The Gazette and Bulletin this morning publishes the report of Mayor Raymond on the causes of flood in the West Branch valley and his recommendations for relief for the city of Williamsport. The report occupies over eight columns. After dwelling at length upon the subject the army engineer summarizes his conclusions as follows:

"We consider that any thorough and efficient plan for the protection of the city of Williamsport against floods should embrace the following: The removal of the present dam, and if a dam is considered necessary to the interests of Williamsport, the substitution of a moveable dam which could be lowered during floods; the rectification of the river section at the three bridges, by the necessary removal of abutments and embankments of approach, together with the increase of section at points indicated; the erection of proper embankments upon the lines described; the rectification of the mouth of Lycoming creek by the removal of obstructions in its vicinity; the removal of islands and obstructing boom piers within the city limits; the adoption of a comprehensive plan for city drainage; and the use of pumping plants at necessary times to relieve the lower districts of its drainage."

The report was discussed last evening by a sub-committee of the general flood committee, and was referred to a gentleman to make an estimate of carrying out the suggestions for relief.

THE Tennessee legislature has taken another recess, this time for ten days, to enable the committee pretending to investigate the gubernatorial election of last year time to make up a plausible report reccommending the seating of Turney in the Governorship. This delay should not be taken, however, as a sign of wavering in the purpose to commit the crime decided upon from the start. The Republican who was elected Governor will be counted out and the Democrat who was defeated will be counted in although it is evident outside the Democratic "gang" in Tennessee the opposition to the commission of this crime is growing. A crowded meeting composed wholly of Democrats was held in one of the largest halls in Nashville last Friday night to protest against this wrong and leading Democrats both in Tennessee and outside of it are expressing decided opinions in the same way. But the theft will be carried out nevertheless.

Not Sick Enough for the Doctor.

but a little out of sorts. Ripan's Tabules would serve in your case. It is well to have them on hand for just such occasions.

Walking to New York.

George M. Shilling, a member of the Emerald Athletic club, of Pittsburg, who expects to cover 407 miles, the distance between Pittsburg and New York, in less than twelve days, left the office of the Pittsburg Press on Monday morning at 9 o'clock, passing through Greensburg and Johnstown. He arrived in Altoona last evening at 5.40 o'clock, covering the distance between there and Pittsburg in less than three days. He traveled on the first day thirty-one miles, on the second forty-seven and on the third thirty-eight.

To reach New York he must keep up an average of about thirty-four miles a day, but, at the rate he is now traveling, thirty-eight and two-third miles a day, he will reach New York ahead of time.

He carries with him checking cards, which he will have signed by prominent citizens of each town he passes through He is a young man not more than 25 years of age, with his left arm off at the shoulder. His baggage consists of a small knapsack, which is slung across his shoulder, and a mackintosh coat.

—The Maitland steam and hot water boiler is acquiring a reputation abroad, even in Baltimore.

DON'T STOP TOBACCO.

How to Cure Yourself While Using the Weed.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and hap iness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully conpounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking Baco-Curo, it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes or refund the money with 10 per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. Sold by all druggists, with our ironclad guarantee, at $1.00 per box, three boxes, (thirty days' treatment,) $2.50, or sent direct upon receipt of price. Send six two-cent stamps for sample box. Booklets and proofs free. Address, Eureka Chemical and Manufacturing company, Manufacturing Chemists, La Crosse, Wisconsin.

KEEP IT BOOMING.

Work is the Only Way to Make a Big Centennial.

On Tuesday evening Gen. Beaver spoke of the "gush" of the newspapers over the proposed centennial celebration in Bellefonte in a way that could be taken either as sarcasm or as a compliment—although there is no doubt but that he meant the latter. And just here we would like to say that the newspapers, as a rule, always do their whole part towards any movement that will in any way enhance the interests of Bellefonte. They not only know "how to spell push" but they spell it; and they not only spell it, but they push, and if every other individual in the town would do one half the pushing the newspapers do, Bellefonte would have a centennial that would rival anything of the kind ever held in the State. But they don't and that's where the trouble lays.

But, appropos of the subject, the committee appointed at the meeting Tuesday evening to formulate a plan for the proper celebration of the centennial met and presented a report at the meeting Friday evening, which, if carried out, will to a great extent, give us a very creditable celebration. It is proposed to give the firemen the full use of two days, June 5th and 6th. On Friday, the 7th, will be the celebration proper of the centennial. It is now planned to have a monster parade in the forenoon of that day, to be made up of military and civic organizations, which will include Company B, G. A. R. posts, the State College cadets, Odd Fellows, Knights of the Golden Eagle, American Mechanics, etc.; and in addition to have an industrial parade, represented by as many as can be induced to enter with appropriate floats and wagons. In the afternoon there will be a public meeting at which an appropriate oration will be delivered, probably by Gen. Beaver, and other addresses made by various well known speakers. There will be good music, by a number of bands, during the entire day. In the evening there will be an unrivalled exhibition of the grandest fireworks ever seen in Bellefonte, as there will also be the evening previous. Special set pieces will be put off representing Bellefonte one hundred years ago, and as it is today.

Governor D. H. Hastings, cabinet and staff, Ex-Governor Pattison and many other State notables will be invited to be present and, likely will accept.

Is Adapted to Various Classes.

The membership in the Improved Order of Heptasophs is adapted to various classes and conditions of men, is evident from the fact that we confine ourselves to no creed; Catholic and Protestant should welcome the *result of Heptasophism* in its ultimate aim of bringing about the universal brotherhood of man, under the common fatherhood of God. We are confined to no party, there is enough protection (to home and loved ones) to suit the Republicans, and this protection is furnished by a sufficiently low tariff to be acceptable to the Democrats! Protection by means of low tariff is our platform on which all parties can stand. We are confined to no class, the employer and the employee, the farmer, the merchant and the mechanic, ministers of different denominations, lawyers for both plaintiff and defendant, and physicians of different chools, all take the same obligation, all have the same password, all partake of the same festivities, all are brothers here.

Ploughing.

The deeper we can penetrate down into the soil with the plow the more plant food we can draw up and the greater quantity of water we can store there. Every rain storm now avails us very little, if the hard pan is formed a foot below the surface. It soon runs off and disappears. The plant food that is buried up in the hard pan cannot be utilized by the roots of the crops and a great deal of loss is experienced in this way. The question of inventing a plow that will penetrate from two to three feet below the surface and stir the soil up thorouhly every spring is very important and one that will have a direct bearing upon the future of our agriculture. Meanwhile, we must break up the hard pan beneath our plowed fields the best we can. Our present subsoil plows only partly solve the difficulty and many of them run so hard that it almost requires steam to haul them across a field of ordinary compactness.

Safe Cracked at Eagleville.

The safe in the store of Captain Quigley, at Eagleville, was cracked Tuesday night by burglars. Judging from the neat manner in which the thief did his work, the conclusion is reached that the man was an expert at that kind of work. A number of articles were strewn over the floor, but it is not known what the goods and money stolen will amount to, as Mr. Quigley left Eagleville Tuesday to attend his son's wedding in Bradford, N. Y. As soon as he returns and makes an examination the amount will be determined.

More Earthquake Shocks.

Vienna, April 18.—Another severe shock of earthquake was felt at Laibach a few minutes before 6 o'clock this evening. Several buildings which had been unsettled by previous shocks were thrown to the ground. The wet weather and the scantiness and poorness of the food have caused fever and dysentery among the families who are camping outside the town. Many children have died and the sick are numbeted by the score.

REUNION OF VETERANS.

Old Soldiers Have a Great Day at Lewistown.

Lewistown Pa., April 18.—A reunion of the survivors of the First Defenders, the Logan guards, of Lewistown; the Ringgold artillery, of Reading; the Allen rifles, of Allentown, and the National and Washington infantry, of Pottsville, was held here to-day. The weather and everything else that could contribute to the success of such an occasion were propitious. The town, in evidence of its appreciation of the survivors' service to keep the union of the states intact, was tastefully decorated. The visiting survivors reached here at 1.30 p. m., and were escorted to the Grand Army of the Republic hall for dinner.

On the 16th of April, 1861, the Logan guards left Lewistown with 103 members, a very few hours after the call for volunteers, and were by fortune the first to arrive at the capital. Thirty-five of the 103 survive today, but are widely scattered. The other four companies were equally alert in responding to President Lincoln's call and arrived at Washington on the heels of the Logans, the facilities of transit giving the latter the first advantage.

A business meeting was held, at which a message of congratulation from 400 Massachusetts veterans was received and responded to. A committee of five was directed to be appointed by the newly elected president to arrange for transportation to the next annual meeting at Reading on April 18, 1896. A resolution of thanks to Company G, National Guard of Pennsylvania; Hulings post, No. 176, and other civic societies for their courtesies and contribution for their comfort, and to the citizens generally and the ladies especially for their courtesies and kindness, was unanimously adopted.

The following officers were elected: H. Eisenbise, Logan guards, president; A. H. Levan, Ringgold artillery; Daniel Downey, National light infantry; E. J. Gaynor, Washington artillery; George Kipe, Allen infantry, and Edward E. Zeigler, Logan guards, vice presidents; H. J. McKnight, of Reading, treasurer, and B. F. Bannan, of Pottsville, secretary.

Didn't Ask His Victim for a Choice.

Washington, April 18.—The British ambassador, Sir Julian Pauncefote, received a letter this morning from Mr. G. Gibbon, the attorney for R. W. Buchanan, of New York, whose application for a writ of error and supersedeas was denied by the United States supreme court yesterday, and who as a consequence will be electrocuted during the week commencing on Monday next. Mr. Gibbon's letter stated that his client was a British subject; that his trial was not conducted according to the constitution of New York and the United States, and asked the ambassador for that reason to interfere if possible and prevent the execution. Sir Julian promptly replied that inasmuch as the highest tribunal in the United States has passed upon the matter and overruled the application, he did not see what action he (the ambassador) could take in the matter.

Pauncefote Replies.

Washington, April 18.—The British ambassador, Sir Julian Pauncefote, received a letter this morning from Mr. George W. Gibbon, the attorney for Robert W. Buchanan, of New York, whose application for a writ of error and supersedeas was denied by the United States supreme court yesterday, and who, as a consequence, will be electrocuted during the week commencing on Monday next.

Mr. Gibbon's letter stated that his client was a British subject; that his trial was not conducted according to the constitution of New York and the United States, and asked the ambassador for that reason to interfere, if possible, and prevent the execution. Sir Julian promptly replied that, inasmuch as the highest tribunal in the United States had passed upon the matter and overruled the application, he did not see what action that he (the ambassador) could take in the matter.

Will Remain.

Watertown, N. Y., April 18.—The presbytery of St. Lawrence, before which were submitted the differences between Rev. William N. Cleveland, and the Chaumont Presbyterian church, of which he was pastor, has secured an amicable adjustment of the trouble, and Pastor Cleveland is to remain. Some of the more influential members of the church had asked for his resignation, and their action was attributed to his political views and his manner of expressing them.

Faith Failed to Save Her.

Bethlehem, Pa., April 18.—A peculiar circumstance is connected with the death of Mrs. Francis Frey, who died to-night, aged 55 years. She had suffered a long while from heart trouble and ten days ago was persuaded that prayer would relieve her. She rejected her physician's attention and accepted faith cure. The next day she was up and about. A week ago she was again taken ill and died to-night.

Big Drop in Coke Shipments.

Uniontown, Pa., April 18.—Coke shipments took a big drop last week and the outlook is anything but encouraging. The shipments fell off 1,000 cars. It was given out that many of the operators are demanding $1.50 for coke and refuse to fill orders at a less figure and the fact that ovens are being shut down indicates that they are determined to keep the price up and pay the scale wages.

BELLEFONTE WILL HAVE IT.

A Rousing Centennial Celebration to be Held.

In reponse to the continued urging of the DAILY NEWS a large and enthusiastic, as well as representative crowd of citizens were present in the court house Friday evening to determine what should be done regarding the holding of a centennial celebration in June. Both the Undine and Bellefonte bands were present and livened things up considerable by continuous playing until chairman John C. Miller at 8.30 o'clock mounted the Judges stand and rapped for order. After again stating the object of the meeting he called on the committee appointed at Tuesday night's meeting to formulate a plan for its report and chairman W. E. Gray read the same, as follows:

FELLOW CITIZENS:—Your committee, appointed at a public meeting held in this place on the 16th inst., respectfully beg to submit the following report, the result of our meeting to prepare a plan for the proper celebration of the centennial celebration of the borough of Bellefonte:

It is the sense of the committee that Thursday and Friday, June 6th and 7th, would be suitable days on which to hold a centennial anniversary, leaving Thursday's program to be carried out, as proposed, by the Central Pennsylvania District Firemen's Association. Friday, June 7th, to be devoted to the centennial proper, which should be celebrated by a grand civic and industrial pageant, to move at 10.30 a. m., sharp, thus waiting until all incoming trains have arrived. A public meeting should be held at 3 o'clock p. m., either in the court house or on the North Ward school house grounds, whichever you might deem most suitable, at which a reminiscent address, recounting the proud history of Bellefonte, be the feature. The name of our illustrious townsman, General James A. Beaver, is suggested with the hope that he will be chosen to deliver such an address. It is further suggested that only one formal address is required.

In the evening a pyrotechnic display should be made and at the hour of noon it would be highly desirable to have every bell and whistle in the town sound. We would respectfully recommend the appointment of committees to take charge, as follows:

A committee on Finance; committee on Decorations; committee on Printing; committee on Fireworks: committee on Parade; committee on Meeting: committee on Relics; committee on Transportation.

It is further suggested that all the civic organizations in the county, together with the State College cadet corps, the G. A. R., and Company B, N. G. P., be invited to participate in the parade and that our business men be urged to prepare such a magnificent industrial exhibit as will fully represent our varied business enterprises. All the bands that can be procured should be brought to town and everything done to make a glorious celebration. The committees of which we recommend appointment should be instructed to act in conjunction with chose of the firemen, so far as possible, and the committees on parade, fireworks and meeting should have complete charge of these three divisions of the day's program.

All of which is respectfully submitted by your committee: W. S. Lyon, M. A. Kirk, Al. S. Garman, W. E. Gray and George R. Meek.

GEO. R. MEEK, Sec'y.

Before adopting the above report chairman Miller called for an expression of opinion regarding the advisability of holding a celebration and the only man in the hundreds present who thought it unwise to hold one was Mr. Sechler, although he did not strongly oppose it. The report was then adopted unanimously.

Gen. Beaver suggested that the committee on Relics be made up, in part at least, of members of the Village Improvement Society; that they establish a sort of a side show and charge a small admission fee to the same, the proceeds to go to the Society for their use in improving the town. A motion to that effect carried.

On motion the chairman in conjunction with the committee on the above program, were authorized to appoint the several committees named in the report and to announce the same through the town papers, when it is expected that every man will take off his coat and vest, roll up his sleeves and go to work. Nothing else being brought before the meeting, on motion it adjourned.

Civil Service Examination.

The semi-annual Civil Service examination for positions as clerk and carrier in the city postoffice, will be held at the court house in Bellefonte on Saturday, June 1, 1895. The examination is ordered by the Civil Service Commission, at Washington, and will be held all over the United States by the local boards. Two regular examinations are held each year, in the months of June and December, and all who desire to take the examination here should make application at once. The age limitations are: Clerk, over eighteen, and carrier, between twenty-one and forty.

The United States Civil Service Commission takes this opportunity of stating that the examinations are open to all reputable citizens who may desire to enter the postal service, without regard to their political affiliations. All such citizens, whether Democrats or Republicans, or neither, are invited to apply. They shall be examined, graded and certified with entire impartiality and wholly without regard to their political views; or to any consideration except their efficiency as shown by the grades they obtain in the examination.

For application blanks, full instructions and information relative thereto, apply at the postoffice to the secretary of the board. Applications will be received until 8 o'clock p. m., Monday, May 13, after which any applications receive will be entered for the next examination in December.

The Backward Spring.

It is true that it is a backward spring, but it is a satisfactory kind of backwardness. The change from the blizzards of winter to the comparative mildness of April has been gradual and steady. We have not been subjected to the violent shifts from warm and sunny mornings to snows and icy blasts in the evening. The wind was even tempered to the shorn moyers at the first of the month, and since then the steadiness of April temperature has marked it as an unusually agreeable month.

It is also worth remembering that the tardiness in the advance of spring is of the kind most auspicious to fruits and crops liable to damage from spring frosts. An early development of buds and blossoms is most likely to incur the hazards of killing by frosts when the growth has reached the critical stage. So far, the backwardness of spring has kept the blossoms from appearing, nothing more than a swelling of buds has taken place. When the real spring does come the chances of frosts killing the fruit will be decreased by a large ratio. It is much better to have the frosts now than when they may mean the destruction of an entire fruit crop.

It is also the fact that the spring is not much later than last fall was. We had our compensation in advance last November for the lateness of this spring. This year adds support to a possible theory that by some undiscovered cause the seasons have got jogged around so that winter commences in earnest about the holidays, and does not end until the first half of April.

Main's Circus Coming.

Everybody in Bellefonte will be glad to learn that Walter L. Main's circus and menagerie, which this year is larger than ever, will visit Bellefonte during the early summer season. This will be Main's first appearance here since his disastrous wreck two years ago, and it goes without saying that his show will be immensely patronized.

Warning to Expectant ...
Mothers.

Many internal remedies are being skillfully and glibly advertised, professing to Shorten Labor, Lessen Pains of Childbirth, etc., and with wonderful inconsistency to regulate menstruation. Common sense should teach any woman that a preparation adapted for

MENSTRUAL DISORDERS

will not prepare the system for Childbirth; on the contrary, INTERNAL REMEDIES at this time may imperil her life. We earnestly say BEWARE of all such; they cannot, at this critical period, do any possible good, and their use may prove fatal. It is only by persistent EXTERNAL treatment while enciente, thus relaxing and softening all the parts, that the hour of Child-birth is robbed of its terror; and no remedy on earth does this but

... "MOTHER'S FRIEND."

H H OFFICER, Sec. and Treas.

A limited amount of the shares are now offered

AT 50 CENTS PER SHARE.

Stock, Prospectus and experts report may be obtained from the banking house of
H R LOUNSBERY, 57 Broadway, N. Y.

Keep the Baby Fat.

"CAVE SPRING, GA., May 21, 1894.

"My baby was a living skeleton. The doctors said he was dying of Marasmus, Indigestion, etc. The various foods I tried seemed to keep him alive, but did not strengthen or fatten him. At thirteen months old he weighed exactly what he did at birth—seven pounds. I began using "SCOTT'S EMULSION," sometimes putting a few drops in his bottle, then again feeding it with a spoon; then again by the absorption method of rubbing it into his body. The effect was marvelous. Baby began to stouten and fatten, and became a beautiful dimpled boy, a wonder to all. SCOTT'S EMULSION supplied the one thing needful.

"MRS. KENNON WILLIAMS."

Scott's Emulsion

is especially useful for sickly, delicate children when their other food fails to nourish them. It supplies in a concentrated, easily digestible form, just the nourishment they need to build them up and give them health and strength. It is Cod-liver Oil made palatable and easy to assimilate, combined with the Hypophosphites, both of which are most remarkable nutrients.

Don't be persuaded to accept a substitute!

Scott & Bowne, New York. All Druggists. 50c. and $1.

GREAT VALUE FOR LITTLE MONEY.

WEEKLY NEWS OF THE WORLD FOR A TRIFLE.

The New York Weekly Tribune

A twenty-page journal, is the leading Republican family paper of the United States. It is a NATIONAL FAMILY PAPER, and gives all the general news of the United States. It gives the events of foreign lands in a nutshell. Its Agricultural Department has no superior in the country: Its Market Reports are recognized authority. Separate departments for "The Family Circle," "Our Young Folks," and "Science and Mechanics." Its "Home and Society" columns command the admiration of wives and daughters. Its general political news, editorials and discussions are comprehensive, brilliant and exhaustive.

A SPECIAL CONTRACT enables us to offer this splendid journal and

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—The new bakery on Bishop street has been opened up.

—Dr. R. L. Dartt is putting some more filling in the yards in rear of his double house on Allegheny street.

—Oats seeding is fairly well advanced in this section of the state, and some farmers are almost ready to plant corn.

—The annual commencement of the Bellefonte High School will be held in Garman's opera house on Friday, May 31.

—Jersey Shore must have a regularly organized gang of robbers, judging from the many burglaries occurring down there.

—Benj. H. Arney has been elected treasurer of the Farmers' Mutual Life Insurance Company, in place of James C. Boal, deceased.

—Bertha Thomas, an inmate of Bellefonte poor house, died at that place Wednesday morning. The girl had been in delicate health for many months.

—Solomon Confer has moved from Milesburg to Fleming where he is now conducting a good sized furniture store. Solomon is an enterprising gentleman.

—Our uptown contemporary aggregates Monday's trout catch at about 500. Verily Charlie must have been looking through his fish basket when he wrote that item.

—The rattle-de-bang of the lawn mower is already heard in our midst, and it is soon time for the organ grinder to make his appearance. Also, "Dot Leedle German Band."

—Visitors from a distance declare that Bellefonte is dead. They are mistaken; it is only that such a large number of her citizens are just walking around to save funeral expenses.

—Work has been commenced on the foundation for a new house on corner of Linn and Ridge streets, which will, when completed be occupied by Mrs. Bryson, sister of Mrs. Keller.

—The borough auditors have completed their work of auditing the borough accounts. The interesting feature will be the reading of what they found by the taxpayers of Bellefonte.

—We have received the centennial edition of the Williamsport *Sun*, and it certainly is a great credit to its publishers. May it survive to celebrate many more centennials in a like manner.

—Joseph Cushing, who for several weeks has been ill with typhoid fever, is now rapidly recovering and will soon be able to return to his work as fireman on the Central Railroad of Pennsylvania.

—The Lutheran social at the residence of ex-Sheriff Ishler, on East High street Thursday night, was a success in every particular. The house was crowded and there was plenty to eat and amusement for all.

—There are a good many boys in Bellefonte who do not attend school very regularly. Their parents should see that they are in school every day, as the time will soon come when they are too old to go and then regret will come too late.

—Rev. J. H. McGarrah came to Bellefonte on Wednesday and had the remains of his son, J. Plummer McGarrah raised and transported to Manor Hill, in Huntingdon county, where they will be re-interred beside the remains of his mother.

—The Demorest base ball team, of Williamsport, was defeated by the State College team in a closely contested game at the latter place, Wednesday afternoon by the close score of 14 to 13. There were no very great features during the entire game.

—John Hall, of near Unionville, was arrested on Wednesday, given a hearing and bound over to court for most inhumanly beating his nine-year-old son with a cart whip, all because the little fellow persisted in climbing on a wagon his father had told him not to.

—On Monday evening a select, but impromptu, hop was given in the Bush Arcade in honor of Miss Helen Hastings, who is now visiting in Bellefonte. The occasion proved a very pleasant one for all who were so fortunate as to receive an invitation to attend.

—The farm of the late Daniel Lesh, in the vicinity of Zion, was offered at orphan's court sale last Saturday and the heirs bought it at $71.50 per acre. The Walkey estate, at Hecla, offered at the same time, was not sold because a large enough bid could not be secured.

—The fire brick works of R. B. Wigton & Sons, at Philipsburg, has been sold to a Philadelphia syndicate headed by Frank H. Wigton. A charter has been applied for and the name, Cunard coal mining company, the old firm's operating title, will be changed to Morrisdale mining company,

—Invitations are out for the wedding reception of Mr. Frank Warfield and Miss Emily Elliott Harris, at the home of the brides' parents, Mr. and Mrs. John P. Harris, on Linn street, on Tuesday evening, April 30th, from 7 to 9 o'clock. The wedding will be a private one and will take place at 6 o'clock that evening.

—Dan McCarthy's "True Irish Hearts" will be the next attraction at the opera house on Friday, May 3.

—Sunday was a beautiful day. The sun was even that warm that it made one feel the first symptoms of spring fever.

—This is court week, and consequently there is a goodly attendance of citizens from throughout the county in Bellefonte to-day.

—The robbers who broke into Capt. Quigley's store last Tuesday night failed to get much for their trouble, as there was no money in the safe, and they took very few goods.

—On Thursday, April 18th, Mr. Robert Mann and Miss Lissia Nyman, both of Romola, were united in marriage by Rev. James P. Hughes, at his residence in the Bellefonte Academy.

—Peter Miller, father of Mrs. Mary Irvin, of this place, was found dead in bed at the home of his daughter, Mrs. Harshberger, in Altoona Saturday morning. He was aged about 80 years.

—The bill prohibiting the killing of wild deer in this State for a period of five years has passed the House at Harrisburg. The bill makes it a misdemeanor to transport, sell, or have in possession during the period the law is in force.

—There was great rejoicing at State College Saturday evening over the result of the Princeton—State ball game at Princeton, the score standing 4 to 3 in favor of the orange and black. Such a result places State right in line with the foremost of Colleges in the land.

—Friday evening's hop at the State College, given by the Senior class, was one of the most successful ever held there. Guests were in attendance from all the surrounding towns as well as from the cities. Stopper & Fisk's famous orchestra, of Williamsport, furnished the music.

—C. C. Shuey is starting out to make some very important as well as extensive improvements to the property recently purchased by him on High street. Among the many other changes will be a large and handsome porch along the entire front of the building. Evidently Charlie intends to live comfortable the rest of his days.

—The experiment upon the new tin plate process, made at the nail works here during the last few weeks, has proved a great success, and now all that remains is to wait until a patent on the same is procured and then the public may learn of its greatness. As our townsman, Gen. James A. Beaver, is interested in the scheme we hope there will be "millions in it."

—Somerset maple sugar manufacturers anticipate an unusual good season this spring. They claim that protracted cold weater, especially where the ground has not been frozen to a depth of more than four or five inches as is the case at present always causes the sap to flow more freely and in larger quantities than a season following a winter noted for its moderate temperature.

—Mr. and Mrs. J. H. Myers, of Rochester, N. Y., have issued invitations for the marriage of their daughter Grace, and Frank A. Young. The wedding, on Thursday evening, April 25th, is to be a large church affair, with the bride's sister, Miss Mabel Myers, maid of honor, six bridesmaids and six ushers. The wedding is to be followed by a reception at the home of the bride's parents on Goodman street.

—Edward and Lewis Irvin, the Bellefonte hardware dealers, have moved from Crider's Exchange to Reynold's Avenue into the residence of Capt. S. H. Williams. Mr. Williams and his family have gone to State College where they will take charge of the University Inn. Mr. Williams understands the running of a first-class house and the patrons of the Inn will find in him a jolly and accomodating friend.

—The rear portion of the Pruner block, fell with a crash on Sunday morning about nine o'clock. Workmen last week were engaged digging out around the foundation for the purpose of extending the building and it is now generally supposed that the foundation was thus weakened, at any rate, the building fell, and the workmen can thank their stars it happened on Sunday instead of Saturday, otherwise there might have been a dread casuality to report.

—About eighteen ladies, mostly members of the Village Improvement Society, met in the Y. M. C. A. parlors on Friday evening and during an hour or so discussed various methods of improvement to the town, one of which was a more general planting of shade trees, and especially a row all along the boardwalk on Water street, and another was the effectual cleaning up of the streets and alleys of the town. If the ladies only had a little money at their command, then they could do something.

—At the session of the New England Methodist Episcopal conference last year, one of the candidates for admission refused to promise to abstain from the use of tobacco and was continued. Last Thursday his case came up again and instead of making the promise exacted by the discipline, he answered the bishop as follows: "I have never been a user of tobacco in any form, neither do I ever expect to." Bishop Merrill said the tobacco question was one of minor importance, and the conference admitted the young man by an almost unanimous vote.

—The cool nights seem to linger with us.

—Friday is Arbor day and it should be generally observed by the planting of trees.

—Although some farmers are sowing oats, yet it is with the impression that it is yet a little too early and cold.

—The trout fishing still goes on, but the catching is not so rapid as previously. Such, however, is a fisherman's luck.

—Loyal Temperance Legion meets at W. C. T. U. rooms every Monday 4 p. m. Young people and children cordially invited.

—The light rain of Monday freshened up the grain and grass considerable and made the buds on the trees shoot forth rapidly.

—Owing to rain in Philadelphia the game of ball between the University of Pennsylvania and the State College teams was not played Monday afternoon.

—Clement Dale, Esq., has been elected a delegate to the general synod of the Lutheran church in the United States to be held at Hagerstown, Md., June 3-10.

—Hard Harris was out fishing Tuesday afternoon and caught five trout which, for all we know, might have weighed a pound each. A. A. Dale, Esq., was also out recently and his catch summed up 8 fine beauties of an average length of ten inches. Al. likely had no stone piles to run against when he made that catch.

—On Friday last Dr. Chas. Rhone departed for San Diego, California. He made a day's stop in Erie, and also expected to stop at Chicago and Denver. He will be located with his friend, Mr. Chas. E. Hall, who at one time visited in Bellefonte. Dr. Rhone is a young gentleman of the very highest reputation. His friends here are very sorry to have him depart, and wish him unlimited success and the most robust health in the Far West. However, Dr. Rhone will not sever his connection with Bellefonte entirely, for as soon as extensive repairs to the building in which the Doctor's office is located are completed the office will be reopened in Dr. Rhone's name with Dr. Clyde VanValin in charge.

Doings in Court.

Following is a brief account of the doings in court:

Commonwealth vs. W. H. Stover, desertion. Case dismissed at the cost of the defendant.

Commonwealth vs. Frank Walk. f. and b. Plead guilty and given the usual sentence.

Commonwealth vs. Harvey Thomas, assault and battery. Found guilty as indicted.

The common pleas case of William Witmer vs D. I. Johnston, an action to recover 123½ bushels of wheat and 50 bushels of corn ears, rent alleged to be due plaintiff for year 1889, was taken up and, after a brief hearing, the jury found for the defendant. Ira C. Mitchell conducted the case for the plaintiff and D. F. Fortney and J. C. Meyer for the defense.

The case now on trial is that of the Commonwealth vs. William and James Witmer, obstructing the highway by building a fence five feet out on the public road. Joseph W. Marshall, the only witness heard before the adjournment of court, testified to the fact that the road was opened in 1852 and had been a highway ever since that time.

In the case of the Commonwealth vs. William and James Witmer, for obstructing the public highway, the defendants were found guilty as indicted.

Commonwealth vs. George Spangler, larceny; the charge is stealing coal from moving trains on the Bald Eagle Valley railroad. Spangler is a resident of Eagleville. G. W. Curtin, a railroad police officer; Thomas Haupt, John Hardy and James Zimmerman, railroaders of Tyrone testified to seeing Spangler steal coal from the train they were running on the night of February 22nd.

Pat Parrie, on being sworn, testified that he helped Spangler carry coal from the railroad to his home. He also testified that he had been promised by the plaintiffs $1.50 a day, free board and a pass to Bellefonte and return to come and testify in the case.

[Moral—How far ought such testimony influence the mind of a jury in determining the truth of a given case? It seems to the writer that any one resorting to this kind of testimony ought to learn that it borders very near the realm of corruption.—Ed.]

George Spangler swore he never took the coal and that on the evening in question he was home at the time he was charged with stealing the coal. This fact corroborated by the testimony of Albert Coons and William Rupert. Verdict of the jury, not guilty.

Com. vs. William H. Williams, John Lucas and Frank Haines, larceny. This is the gang charged with robbing Buddinger's store. Williams and Lucas plead guilty and nol pros entered as to case against Haines.

Com. vs. Jacob Aikey, of Eagleville, larceny, D. Winslow, prosecutor. Verdict of the jury, not guilty.

The case of Witmer vs. Brown & Kelley was continued on account of the serious illness of Mr. Witmer.

Com. vs. Curtis McDonald, for taking forcible possession of property of W. A. Hartsock. After hearing the evidence the case was submitted to the jury on the question of costs only.

TWO MORE DEATHS.

Seth H. Yocum and Christ Keller "Called Home."

A letter received in Bellefonte on Saturday contains the sad tidings of the death Thursday night at his home in Passadena, Cal., of Seth H. Yocum, Esq., a former well-known resident of Bellefonte. Mr. Yocum has been sick for a long time and his recovery was always considered a question of doubt. He was a native of Columbia county, a lawyer by profession, and came to Bellefonte in 1874. He succeeded his brother, G. M. Yocum, in the law firm of Bush, Yocum & Hastings, and made quite a record as an able attorney, but he gained the most of his notoriety in 1878 when he ran as a greenback candidate against ex-Governor Curtin for Congress and the vote being so close, contested the seat to him in 1879. Along about 1881 or '82 he retired from the practice of his profession and went to Tennessee, where he assumed control of a large tannery owned by his father-in-law, a Mr. Horton. There he resided a number of years, until his health failed when he moved to California and has lived in that State ever since. He had many friends in this place who will learn with sorrow of his demise. Mr. Yocum was aged about 60 years and is survived by a wife and five children, all grown up.

CHRIST KELLER.

A dispatch from La Jose, Pa., announces the death on Friday, at his home in that place, of Mr. Christ Keller, a former Centre countian. No particulars have been received only that his death was sudden and unexpected.

Christ Keller was born near Centre Hall and was a member of one of the Keller families of that neighborhood. He moved from his farm in that valley to Bellefonte and for a number of years was one of the prominent merchants of this town. From here he moved to La Jose, Pa., where he has since been engaged in the mercantile trade. He will be well remembered by many friends in Bellefonte and Centre county.

The Thieves Arrested.

For several months past T. B. Buddinger has been missing various articles of merchandise from his store in Snow Shoe and incidentally he would hear of the same having been purchased by various parties at a greatly reduced price. This kind of business was kept up until the aggregate loss to Mr. Buddinger would foot up several hundred dollars, but he was never able to detect the thieves. However on Saturday night, by a carefully laid trap, the peculators were brought to justice, three of the crowd being arrested Sunday morning, brought to Bellefonte and two, John Lucas and Frank Haines, both young men, lodged in jail, while the other one was released on turning state's evidence. Warrants were then sworn out against the leader of the gang and one or two others and it is probable that by this time they, too, are in the clutches of the law.

Had a Good Time.

Last week a Mr. and Mrs. Miller, of Altoona, were in Bellefonte celebrating their honeymoon. On Saturday afternoon Mr. Miller got a little too much "honeymoon," or something else, and proceeded to celebrate in the good old way. He got into a fight on High street, and before he got out of the racket he had a pretty badly cut face and a pair of beautifully decorated eyes. It cost him just three dollars in addition to convince the justice that he wasn't the real offender. A man by the name of Ayers, of Valentines furnace, was also in the racket, and he was sent up on the hill to board until this week when he can explain to Judge Love the nature of his guilt or innocence.

His First Mass.

The Catholic church in this place was never so crowded as it was on Sunday morning, it being the occasion of Rev. Father Benner Armour saying his first mass. The church was beautifully decorated and an unusually large and select choir rendered some choice sacred music. Rev. Father Armour, who, by the way, was only ordained to the priesthood in Baltimore last Tuesday, was assisted in the solemn services on Sunday by Rev. Father McArdle, the resident priest, and Rev. Father Maher, of Milton. Rev. Armour gives promise of making a great priest before he adds many more years to his age.

Secured Special Order.

The school appropriation bill secured a special order in the house yesterday which will place it on the calendar so as to be considered on second reading next week. The measure provides that one-third of the appropriation shall be distributed according to the number of teachers actually employed and two-thirds according to the number of taxables. There are 112 members of the house whose districts are adversely affected by the bill. Mr. Fow and other city member protested against granting a special order for the bill because it would affect adversely Philadelphia, Pittsburg and other large cities.

Death of Samuel Lucas.

Samuel Lucas, aged near 70 years, died at his home near Collins' furnace yesterday, after a protracted illness dating from a stroke of paralysis received about one year ago.

His funeral will take place Friday afternoon at Snow Shoe.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

The Armour Case Settled.

The celebrated Armour will case, which has excited considerable attention from all citizens of Bellefonte, and also has been contested in the orphans' court, court of common pleas and Supreme court since June 6, 1893, until the costs in the case, attorney's fees, printing of paper books, etc., will amount to several thousand dollars, has finally been disposed of by an opinion of Judge Love handed down on Monday affirming the decree of the Supreme Court, which decree sustained the verdict of the jury and judgment of the lower court, which was in favor of the heirs, thus breaking the will and deposing D. M. Butts as executor. In accordance with the Court's opinion and certificate to the Orphan's Court Register Rumberger has granted letters of administration to Mr. Monroe Armour and his sister, Mrs. Amanda Miller, giving them full power to go ahead and settle up the estate, making an equal division thereof. This ending of the case seems to meet almost universal approval.

I. O. O. F. Data.

Many of our exchanges in noting the recurring anniversary of Odd Fellowship in America, have about as many conflicting dates as it is possible to have. For the information of the uninformed we would say that the 76th anniversary occurs April 26, 1895. Washington lodge, No. 1, was instituted at Baltimore, Md., April 26, 1819. At that time there was but one lodge in this country with a membership of 5. In 1829 there were 31 lodges with 2,000 members. In 1839 there were 130 lodges with 9,381 members. In 1849 there were 1,727 lodges with 139,242 members. In 1859 there were 3,425 lodges with 177,711 members. In 1879 there were 7,094 lodges with 450,238 members. In 1889 there were 8,989 lodges with 612,260 members. From the rapid strides being made by this order we venture the assertion that when the reports are made out in 1899 there will not be far from 1,000,000 members in the United States.

United for Life.

On Thursday, April 18, at 2.30 p. m., Mr. Daniel A. Grove, an enterprising grain and coal dealer of Lemont, and Miss Catharine Longwell, daughter of Edward Longwell, Esq., of Benner township, were united in holy matrimony at the home of the latter, Rev. G. W. Leisher officiating. It was a quiet, unostentatious wedding, but few guests other than near relatives being present. After the ceremony and congratulations, a sumptuous and enjoyable repast was partaken of by the company. The residence of Mr. Longwell affords a grand and extended prospect of Nittany, Penns and Buffalo valleys, with its towns, hamlets and farms peculiarly pleasing to the beholder.

He Shot at Them.

On Saturday night a well known resident of Port Matilda heard quite a fuss among his fowls and getting out of bed he hastily dressed and with a revolver in his hand proceeded to his hen house. Before he reached there, however, he saw three men running away. The man called on them to halt and they not doing so he fired three shots, but did not succeed in stopping them or, so fat as he knows, hitting any of them. The men were frightened away too soon to capture any of the fowls, but that man is watching and if the chicken thieves again return, they will get a warm reception.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

Henry G. Mawrer, of Clintondale, and Jose E. Rodgers, of Nittany.

R. J. Mann, of Curtin township, and Lizzie Nyman, of Bogg township.

B. K. Henderson, of Benner township, and Jennie Taylor, of Bellefonte.

Joseph S. Parrsons and Joanna Callathan of Bellefonte.

James McPhilomy, of Brisbin, Clearfield county, and Lida Garman, of Snow Shoe.

Edward Crain and Rhoda Gunsallus, of Bellefonte.

Death of Anna McKnight.

Miss Anna McKnight, a maiden sister of Mr. Robert McKnight, lately of this place, but now of Hunter's Park, on Buffalo Run, died at the home of her brother on Monday afternoon, at the advanced age of 85 years. The funeral took place Wednesday, meet at the house at 9 o'clock where services were held after which the remains were brought to Bellefonte for interment in the Union cemetery.

Boys Must Keep Out.

Notice is hereby given that hereafter no children will be allowed in the Union cemetery unless they are accompanied by their parents. This rule will be enforced because recently children have been defacing tombstones and monuments by hitting with stones, sticks, etc.

Personal Pencilings.

Mart Garman is now a law student in the office of Ira C. Mitchell, Esq.

Rev. Father Armour was an arrival in Bellefonte on Wednesday evening.

Miss Mame Rian, who has been visiting friends in Bellefonte, departed for her home in Lock Haven Thursday evening.

Mr. S. W. Trew, with the American Press Association in Philadelphia, was looking up that concern's interest in Bellefonte to-day.

Miss Helen R. Hastings, daughter of Governor and Mrs. Hastings, is now a guest at the residence of Col. S. L. Spangler, on Allegheny street.

We notice that ex-deputy prothonotary D. R. Foreman has gone to Butler to speculate in oil. Rather a slippery business, Dave; so look out for it.

—The class in chemistry at the Bellefonte academy promises to prove of unusual interest and unexpected size—far exceeding the anticipation of the principal.

Hon. James P. Coburn, of Aaronsburg, was a visitor in Bellefonte on Monday and attended a meeting of the board of directors of the First National Bank while here.

George Nox McCain, of the Philadelphia *Press*, will lecture in the chapel at the State College next Friday evening. Mr. McCain is a brilliant talker and will draw a large audience.

Charles R. Kurtz, editor of the *Centre Democrat*, is off on a business trip to Philadelphia, accompanying his brother, William Kurtz, who recently purchased the Lewisburg *Journal*.

That genial, frank and whole-souled gentleman, ex-Recorder Dr. John F. Harter, of Millheim, spent Friday night in Bellefonte and was an interested spectator at the centennial meeting in the court house.

Hon. J. H. Wolfenden, of Clinton county was a Bellefonte visitor on Thursday and did not forget to pay his respects to this office. Mr. Wolfenden is one of that class of men who believe in the most aggressive kind of progression.

Keeping the Streets Clean.

Ogdensburg, N. Y., residents are also endeavoring to beautify their city and the late report of the Board of Public Works contains the following pertinent paragraph, which is also applicable to Bellefonte:

"The best results, however, in the way of street cleaning can be attained by each citizen cheerfully uniting with the authorities to keep them clean. The habit of the individual gives character to the community. We earnestly urge that every citizen is as firmly bound by a public duty to refrain from placing debris in the street as the public official is to remove it. So long as individual merchants deposit the waste of their stores on the roadway or in back yards, where it can escape or be scattered by children upon the streets, or allow advertising "dodgers" to be thrown broadcast, and discarded papers given to the winds; so long as a portion of our people make the streets a dumping place for coal ashes and other refuse, the efforts of municipal authorities, and the commendable neatness of various other citizens, will fail to secure that tidy condition which ought to exist in this beautiful city."

—Joseph W. Marshall, one of the most prosperous and wide-a-wake farmers of Benner township, was seventy years old Tuesday, April 23rd. He was born near where he now lives, in what was then Spring township, and has resided there ever since. During all this time Mr. Marshall has seen many changes in places and persons. Old residents have died and new ones have come and gone, and very few of his boyhood playmates are to be found anywhere. Mr. Marshall is still hale and hearty and gives promise of rounding out a full four score years or more.

For an ache
Or a pain,
A bruise
Or a sprain
We have
The remedy
